LETTER OF TRANSMITTAL

STATE OF ILLINOIS,
DEPARTMENT OF MINES AND MINERALS.

SPRINGFIELD, ILLINOIS, MAY 1, 1984

*To His Excellency, James Thompson, Governor
State of Illinois, Springfield*

Sir: In compliance with the Illinois Revised Statutes, I am submitting herewith the Annual Report of the Illinois Department of Mines and Minerals for the year 1983.

This report includes production, employment, and non-fatal accident figures for underground and surface mines; the annual report of the Division of Land Reclamation and the annual report of the Division of Oil and Gas.

Respectfully submitted,
BRAD EVILSIZER, *Director*

TABLE OF CONTENTS

| | Page |
|--|------|
| Directors of the Department of Mines and Minerals | |
| Personnel Roster | |
| List of State Mine Inspectors and Counties Comprising their Respective Districts | |

I GENERAL

| | |
|--|--|
| Table 1 — Directory of All Mines | |
| Table 2 — General Statement with Comparative Figures 1977-1983 | |
| Mines Suspending Operations During 1983 | |
| Mines Abandoned During 1983 | |
| Mines Reopened During 1983 | |

II PRODUCTION

| | |
|---|--|
| Table 3 — Average Man-Day Production — All Mines | |
| Table 4 — Output of Shipping Mines by Months, All Mines 1976-1983 | |
| Table 5 — Number of Shipping Mines Operated and Average Days Worked Each Month, All Mines 1976-1983 | |
| Table 6 — Relative Rank of Counties Producing 500,000 Tons or More 1977-1983 | |
| Table 7 — Tons of Coal Produced, Average Days Worked, Number of Mines Operated, and Number of Employees in All Shipping Mines, with Percentage by Years from 1920 to 1968 Inclusive, All Mines 1969-1983 | |
| Table 8 — Mines and Production 1980-1983 | |
| Table 9 — Output of All Mines and Days Worked Each Month in 1983 | |
| Table 10 — Disposition of Output, Explosives Used, and How Mined | |
| Table 11 — Railroads Handling Coal and Mines Served by Each | |
| Table 12 — Special Preparation Plants | |
| Table 13 — Physical and Mechanical Characteristics of All Mines, Tons Mined, Total Tons Mined, and Year Mine Opened | |
| Table 14 — Total Production of Coal in Tons by Counties, 1882-1983 | |
| Table 15 — Summary of the Various Seams of Coal, Kind of Opening, Manner of Working and Tons Produced From Each Seam | |

III LABOR AND EMPLOYMENT

| | |
|--|--|
| Table 16 — Non-Fatal Accident by Counties and Months, 1983 | |
| Table 17 — Comparative Statistics of Fatal and Non-Fatal Accidents for the Period 1928 to 1983 Inclusive | |
| Table 18 — Tons of Coal Mined, Number Employed, Number Killed and Injured, Tons Mined to One Man Killed and Injured, and Ratios Per 1,000 Employed and Per 1,000,000 Tons Mined — 1882-1983, Including Injuries Involving Loss of 30 Days or More | |
| Table 19 — Fatal Accidents by Occupation and Causes, 1983 | |
| Table 20 — Causes of Fatal Accidents by Years — 1882-1983 | |
| Table 21 — Comparative Statistics of Fatal Accidents for the Period 1973-1983 Inclusive and Tons Mined to One Man Killed | |

| | |
|---|--|
| Table 22 — Fatal Accidents | |
| Summary of Fatal Accidents — 1983 | |
| Table 23 — Working Time | |
| Table 24 — Employees | |

IV MECHANIZATION

| | |
|--|--|
| Table 25 — Machine Mining for the Period 1928–1983 Inclusive, All Mines | |
| Table 26 — Number of Mines Operated and Total Tons Mined; Strip Mines and Output; Number of Mines Using Machines, Number Used and Tonnage Undercut; Number of Mines Using Motors for Underground Haulage, Number of Motors Used and Tons Hauled; Also the Percentage of Each Class — Shipping Mines by Years 1907–1968, All Mines 1969–1983 | |
| Table 27 — Method of Loading in All Mines | |
| Table 28 — Mechanical Loading in Shipping Mines for Fifty Years, 1931–1968, All Mines 1969–1983 | |
| Table 29 — Method of Loading in Shipping Mines for Fifty Years, 1931–1968, All Mines — 1969–1983 | |
| Report of Metal Mines Operation | |
| Analytical Laboratory | |
| Summary of Activities of Mine Rescue Station | |
| Report of Miners' Examining Board | |
| Duplicate Certificates Issued | |
| Certificates of Competency Issued by Miners' Examining Board | |
| General Description, Training Division, Department of Mines & Minerals | |
| Report of Certificates of Competency Issued by Mining Board: | |
| State Mine Inspector | |
| Mine Rescue Station Supervisor | |
| Mine Rescue Station Assistant | |
| Mine Manager | |
| Mine Examiner | |
| Electric Hoisting Engineer | |
| Electric Hoisting Engineer — Metal Mines | |
| Shaft and Slope Supervisor | |
| Shaft and Slope Examiner | |
| Surface Mine Supervisor — All Categories | |
| Surface Mine Supervisor — Drilling & Shooting | |
| Surface Mine Supervisor — Overburden | |
| Surface Mine Supervisor — Pit Coal Loading | |
| Surface Mine Supervisor — Reclamation | |
| EXPLOSIVES DIVISION | |

SUMMARY OF FATAL ACCIDENTS 1983

Mr. Gene Richey, age 59, married, one dependent, drowned at approximately 7:00 A.M., Wednesday, February 9, 1983, while in the performance of his duties as Foreman at Williamson Coal Company #2, Energy, Williamson County, Illinois.

Mr. Richey and Ed Laroe paddled a small boat out to a float where a pump was located in a strip pit. When they reached the float, Mr. Laroe went to the pump to start the motor. Mr. Richey held the boat in place with one foot and was facing the pump. The pump started and as water began pumping through the discharge line the hose broke. The water pressure hit Mr. Richey knocking him from the boat and the water pressure pushed both the float and boat away from Mr. Richey. Neither Mr. Richey nor Mr. Laroe could swim and rescue efforts from others on shore could not be made before Mr. Richey's drowning.

Mr. Robert B. Lindsay, age 31, married, three dependents, was electrocuted at approximately 4:00 A.M., July 28, 1983, while in the performance of his duties as repair foreman at Old Ben Coal Company #26, Sesser, Franklin County, Illinois.

Mr. Lindsay had gone to the Long Wall #1 unit located in the 40th North off of the 16 East section of the mine to check on an electrical problem with the stage loader. Mr. Lindsay removed the electrical compartment cover for the stage loader to locate the malfunction. He stated to Steve McKinney that he would wait and remove power to fix the problem when the longwall reached a certain point. But in the mean time Mr. Lindsay had to reverse the stage loader and told Mr. McKinney that he knew what the problem was and was going to repair it. Upon reaching into the electrical compartment of the stage loader Mr. Lindsay came in contact with an energized electrical lead resulting in his electrocution. CPR was administered after de-energizing of stage loader, however, Mr. Lindsay was pronounced dead on arrival at Franklin Hospital in Benton.

Mr. Monte C. Thurman, age 29, married, three dependents, was crushed at approximately 4:50 P.M., September 12, 1983 while in the performance of his duties as Mobile Equipment Operator at Midland Coal Company, Rapatee Mine, Farmington, Fulton County, Illinois.

Mr. Thurman had been assigned the job of doing dozer work around the Rapatee Mine tipple; however, the dozer at the tipple was not operating properly so Mr. Thurman was taken by the second

shift tipple Foreman to the pit area for a lowboy tractor trailer. Mr. Thurman then proceeded to the bench area to get a #4456 D-9 Caterpillar Dozer. After loading the dozer on the lowboy he drove to a ramp at the east end of the bench. While driving up the ramp Mr. Thurman experienced problems in shifting resulting in the tractor's front end coming off the ground. A loss of traction flipped the tractor backwards crushing Mr. Thurman between the cab roof and the goose neck on the trailer.

Mr. Jackson Pierce, age 63, married, one dependent died from a highwall fall at approximately 8:15 P.M., September 27, 1983, while in the performance of his duties as Tractor Operator at Freeman United Coal Mining Company, Fidelity #11, DuQuoin, Perry County, Illinois.

Mr. Pierce had been performing work with a dozer on a bench near a wheel excavator. Mr. Pierce dismounted the dozer and walked to the edge of the bench and while standing there a portion of the bench gave way with Mr. Pierce falling approximately 15 to 20 feet. The fall was seen by fellow miners who immediately ran to the area of Mr. Pierce's fall and began digging in the dirt which covered the victim. Mr. Pierce was uncovered in about 15 minutes and was administered first aid, however he was pronounced dead on arrival at Marshall Browning Hospital in DuQuoin.

III LABOR & EMPLOYMENT — TABLE 23 WORKING TIME — ALL MINES

| | Average Days Worked | | | Percent of Increase (+) Decrease (-) |
|-----------------|---------------------|------|------------------------------|--|
| | 1982 | 1983 | Increase (+) Decrease (-) | |
| All Mines | 207 | 208 | + 1 | + .5% |

*Statistics from 1969 to present are not comparable with those of prior years as they include local mines which were not reported previously in this table.

REPORT OF METAL MINES OPERATIONS — FLUORSPAR, ZINC & LEAD — 1983
NAME, LOCATION OF MINE, DEPTH OF SHAFT, USE OF PRODUCTS, METHOD OF HOISTING AND MINING

| Name of Operator | Location of Mine | | Depth of Shaft | Product Used For — | Method of Hoisting | Method of Mining— Hand, Machine or Both |
|------------------------------|-------------------|--------------|----------------|--|--------------------|--|
| | Post Office | County | | | | |
| Hastie Mining Co. | Cave-In-Rock. ... | Hardin. | Strip | Flux in steel, glass industry, aluminum | | Machine |
| Inverness Mining Co. | Cave-In-Rock. ... | Hardin. | 645' | Chemicals production; steel flux; ceramic, glass & fiberglass manufacturing oil well drilling mud | Electric | Machine |
| Ozark-Mahoning Company. | Rosiclare. | Hardin. | 800' | Hydrofluoric Acid & fiberglass products & Steel Industry | Electric | Machine |

METAL MINES OPERATIONS — FLUORSPAR, LEAD & ZINC — 1983

| Name of Operator | Production in Tons | Number Employed | Days Worked | Explosives Used — Dynamite & AN/FO Pounds | Accidents | | Tons Shipped to Points in — | | |
|--|-----------------------|--------------------|----------------|---|-----------|---------------|-----------------------------|-----------------|----------------------|
| | | | | | Fatal | Non- Fatal | Illinois | Other States | Foreign Countries |
| Hastie Mining Co. | 2,029 | 2 | 305 | 20,000* | 0 | 0 | 496 | 1,533 | |
| Inverness Mining Co. (Temporarily Closed) | | | | 92,450 227,170* | 0 | 30 | 2,257 | 60,493 | 1,018 |
| Ozark-Mahoning Co. | 140,481 | 134 | 356 | | | | | | |

| <i>Laboratory Technician II</i> | Ronnie Maddox 409 South Odle Street West Frankfort, Illinois 62896 |

ANALYTICAL LABORATORY

As a result of an investigation of the Centralia mine disaster which claimed the lives of 111 miners in the spring of 1947, a decision was made in January of 1948 to establish an Analytical Laboratory within the Department of Mines and Minerals. The purpose of the laboratory was for the safety and health of the several thousand miners, union officials and state and federal officials. By establishing the Analytical Laboratory in January of 1948, Illinois became the first state to operate a laboratory of this type in connection with its mining department. Miners of Illinois have come to depend on this laboratory and it has no doubt played a significant role in the State's record.

In 1948 the laboratory was temporarily located on the University of Illinois campus in Champaign. In June of 1952 the laboratory was moved to Springfield where it remained until destroyed by fire in December of 1953. In 1954 the laboratory was established at West Frankfort. Early in 1970 a new building, the Mine Rescue Station and Analytical Laboratory, was completed at 503 East Main Street in Benton. The building, a modern one-story building, covering 13,372 square feet, houses the latest in mine rescue and laboratory equipment. This is the first permanent building for the laboratory since it was established in 1948. The Benton area is the center of the largest coal producing field in the State of Illinois.

The Analytical Laboratory of the Department of Mines and Minerals consists of two divisions: Safety and Coal Analysis.

Safety Division

Mine disasters, which can claim many lives, are usually caused by mine fires and explosions. The purpose of this division is to prevent this from happening. Mine rock dust samples are analyzed for the percentage of combustible and incombustible materials to determine flame propagation characteristics. These samples are collected from specific points in each mine each month. In 1983 there were 3,301 rock dust samples analyzed for three components, carbon dioxide, moisture and ash, representing 9,903 individual components.

The second procedure used to prevent fires and explosions is the monitoring of mine air. Methane and other higher molecular weight saturated and unsaturated hydrocarbons are explosives if allowed to accumulate due to an improper ventilation plan and/or the improper execution of that plan. Air samples are collected and analyzed expeditiously each month from all coal, spar and metal mines and all quarries in the state. Any high methane concentrations are reported to State Mine Inspectors immediately to insure corrective action.

These same air samples are also analyzed for any noxious and/or poisonous gases such as carbon monoxide. Oxygen, methane and carbon monoxide are also analyzed to ascertain whether or not their concentrations are in compliance with State mining laws in regard to health and safety conditions.

The laboratory uses a gas chromatographic method for gas analysis which is more accurate, economical and faster than the older volumetric method. Samples are analyzed for oxygen, nitrogen, methane, carbon dioxide and carbon monoxide with a dual-column gas chromatograph. The chromatographic system employs a metallic nickel catalytic converter for the conversion of carbon dioxide and carbon monoxide to methane making detection possible by flame ionization. This conversion is similar to the exhaust system in most of the newer cars and results in sensitivity of .1ppm for carbon monoxide. Oxygen and nitrogen are detected by a thermal conductivity detector. The entire chromatographic system feeds a strip-chart recorder, and an electronic integrator which is used for greater speed and accuracy.

In 1983 the laboratory analyzed 4,161 air samples, each consisting of five gases for a total of 20,805 components. This included many fire samples, dozens of standards, and many samples collected for abandoned mines.

The laboratory is also equipped to provide field operations in the event of mine fire, explosion, disaster, mine subsidence, gas from abandoned mines, or other problems involving explosive gases and air. Maintained at the laboratory is a portable gas chromatograph and the necessary equipment and supplies which can be moved to the problem area quickly. The equipment and supplies are housed and transported in a thirty-five foot 1970 Dodge van complete with a 1100V generator.

In September of 1980, the Department of Mines and Minerals, through the Abandoned Mined Land Reclamation Council, received a grant from the United States Department of Interior, Office of Surface Mining for \$24,500. This money was used to buy additional equipment to upgrade the mobile laboratory and to remove certain deficiencies. The equipment includes three gas chromatographs, two strip chart recorders, two electronic integrators, five standard gas mixtures, two programmable calculators, repair and replacement parts, and the necessary installation materials.

Field Operations of the Analytical Laboratory

In November of 1982, the mobile laboratory was utilized for air analysis in Vermilion County in Danville after an explosion of methane gas from an old abandoned mine which has for many years

been the site of the Star Fireworks Manufacturing Co. Inc. After the explosion the three shafts were filled to prevent the reoccurrence of the explosion. Air analysis revealed no further traces of methane gas.

On September 4th, 5th and 5th, 1981, the mobile laboratory with its new equipment was first field-tested during an active coal mine fire and sealing operation at the Peabody No. 10 mine. The fire area was sealed and the mine was put back into operations without incident.

During the month of June, 1981, the mobile laboratory was used in cooperation with the Department of Law Enforcement at the state police headquarters in Maryville, Illinois. The headquarters had been severely damaged by mine subsidence and a series of test borings were being performed to assess the extent of possible future damage. Once the borings had perforated the mine, large concentrations of methane gas escaped from the mine. Gas analysis was performed during tests and recommendations were made to the law enforcement officials with regard to safety precautions which would prevent ignition of the gas.

During May and June of 1981, the mobile laboratory was utilized in the analysis of air samples at the Old Wasson mine. A hazardous concentration of methane gas was found to be escaping, in both the air and man and materials shafts. Corrective action was undertaken by the Abandoned Mined Lands Reclamation Council.

During February of 1981, the mobile laboratory was utilized in the analysis of air samples collected at the Old West mine in West Frankfort. This effort was in cooperation with the Abandoned Mined Lands Reclamation Council. The mine shaft was filled as a safety precaution and the old mine workings removed from the site.

In August of 1980, the personnel of the Analytical Laboratory responded with their equipment and services to a gob fire at the Inland Steel No. 1 Coal Mine, located in Jefferson County at Sesser, Illinois. Mine gas air samples were analyzed before, during and after the area was sealed and liquid carbon dioxide was injected. The oxygen, methane, carbon dioxide and carbon monoxide levels were monitored carefully. A total of 163 mine gas air samples were analyzed along with dozens of standards.

In January of 1980, a raging fire broke out in a section of Peabody Coal Mine No. 10, located in Christian County at Pawnee, Illinois. After direct extinguishing techniques were unsuccessful, the area was sealed, borehole drilled and liquid carbon dioxide injected. The area was monitored until May at which time an elaborate plan was

implemented to reopen the section. Over 500 mine gas samples were analyzed along with dozens of standards.

On November 22, 1979, the personnel of the Analytical Laboratory responded with the mobile laboratory to a fire at Freeman United Coal Company, Orient No. 4 mine at Johnston City, Illinois in Williamson County. The laboratory was prepared to run air analysis; however, the fire was extinguished by water and sealing and sampling were not necessary.

During September, 1979, the personnel and mobile laboratory responded to a fire at Consolidation Coal Company Mine No. 63 at Coffeen, Illinois in Montgomery County. Air sampling and analyses were performed over several days while the temporary and permanent seals were being built and liquid carbon dioxide was injected. A total of 128 fire samples and dozens of standards were analyzed.

During June, 1979, the personnel of the Analytical Laboratory responded with the mobile laboratory to a fire at the Old Ben Coal Company's No. 21 mine at Sesser, Illinois in Franklin County. Air sampling and analysis took place over several days while the fire area was sealed and liquid carbon dioxide was injected. Over 382 fire samples were analyzed along with dozens of standards.

In March, 1979, the personnel of the Analytical Laboratory responded with the mobile laboratory to a fire at the Peabody Coal Company Camp No. 1 mine near Morganfield, Kentucky. Twenty five fire samples were analyzed to aid in extinguishing the fire and in reopening the mine. The process included building seals and injecting liquid carbon dioxide.

In January of 1979, the personnel of the Analytical Laboratory responded with the mobile laboratory to a fire at the Peabody Coal Company River King Underground mine at Freeburg, Illinois in St. Clair County. Fifty seven fire samples were analyzed along with standards while the fire area was sealed. Again liquid carbon dioxide was injected.

On October 6, 1978, a fire was discovered at the Old Ben Coal Company Mine No. 21. The portable laboratory was moved to the mine site and atmospheric samples and analysis were begun. On the basis of these analysis, decisions were made as to when the permanent seals could be built, when the mine could be opened and when the fire was under control. A total of 115 samples were analyzed over a period of two weeks.

On September 7, 1978, methane gas was found to be leading into the atmosphere in downtown Eldorado from the old O'Gara coal mine. The amount of gas was considerable and represented a potentially dangerous condition for the townspeople. The laboratory was

set up nearby and used to monitor the gas emissions. A temporary diffuser was installed, the area barricaded off, and patrolled. Federal money was provided for filling the old shaft, drilling and casing a bleed hole, and the installation of a diffuser.

In 1977, the portable laboratory was set up in Belleville, Illinois to permit rapid analysis of gases from abandoned mines in cooperation with the United States Bureau of Mines and the Subsidence-Control Project in the Belleville-Maryville, Illinois area.

In 1976 for the first time the mobile laboratory was used at the Peabody River King Underground mine at Freeburg in November and December analyzing samples every four hours for four days. The results obtained assisted company, and state and federal officials in determining what steps needed to be taken to control and extinguish the fire and also determined when the permanent seals could be built.

Coal Analysis

The second division of the Analytical Laboratory is the coal analysis program, which was designed to insure the quality of coal purchased for State institutions by the State of Illinois. The program was planned by the State Purchasing Department and the Director of the Department of Mines and Minerals.

The program calls for several samples of coal every month to be shipped from the State's mental, charitable, penal and educational institutions to the laboratory for analysis. The coal is pulverized, a composite formed and then analyzed for heat content, moisture, ash and sulfur. If the coal does not meet State specifications, a penalty can be imposed.

As a result of this program, the General Services Purchasing Division is able to procure better grades of coal for less money. In the first year of the program, an estimated 20% efficiency was realized in heating the various State institutions.

For the calendar year of 1983 the State of Illinois purchased approximately 200,000 tons of coal with a value of almost \$7,500,000. Hundreds of samples were collected, reduced to 234 composites, and analyzed in duplicate for a total of 1,638 individual analysis.

SUMMARY OF THE NUMBER OF MINE ATMOSPHERIC SAMPLES AND ROCK DUST SAMPLES BY MONTH FOR THE YEAR OF 1983

| Month | Air | Rock Dust |
|-----------------|-------|--------------|
| January | 353 | 259 |
| February | 331 | 244 |
| March | 382 | 241 |
| April | 346 | 277 |
| May | 317 | 250 |
| June | 307 | 253 |
| July | 319 | 216 |
| August | 342 | 301 |
| September | 336 | 283 |
| October | 371 | 312 |
| November | 396 | 375 |
| December | 361 | 290 |
| Total | 4,161 | 3,301 |

SUMMARY OF THE NUMBER OF MINE ATMOSPHERIC SAMPLES AND ROCK DUST SAMPLES BY YEAR SINCE THE INCEPTION OF THE LABORATORY

| Year | Air | Rock Dust |
|-------------------|---------|--------------|
| 1983 | 4,161 | 3,301 |
| 1982 | 4,733 | 3,356 |
| 1981 | 4,398 | 3,371 |
| 1980 | 5,875 | 3,840 |
| 1979 | 5,587 | 3,876 |
| 1978 | 4,154 | 2,749 |
| 1977 | 4,477 | 2,727 |
| 1976 | 4,110 | 2,732 |
| 1975 | 3,095 | 2,150 |
| 1974 | 2,784 | 2,456 |
| 1973 | 2,350 | 1,806 |
| 1972 | 2,628 | 1,869 |
| 1971 | 2,756 | 2,364 |
| 1970 | 2,887 | 2,627 |
| 1969 | 2,551 | 2,679 |
| 1968 | 3,073 | 2,597 |
| 1967 | 2,801 | 2,471 |
| 1966 | 2,788 | 2,588 |
| 1965 | 2,734 | 2,717 |
| 1964 | 2,588 | 2,728 |
| 1963 | 2,466 | 2,944 |
| 1962 | 2,320 | 2,682 |
| 1961 | 2,432 | 2,713 |
| 1960 | 2,299 | 2,773 |
| 1959 | 2,765 | 3,304 |
| 1958 | 2,856 | 3,554 |
| 1957 | 2,820 | 3,862 |
| 1956 | 2,750 | 4,161 |
| 1955 | 3,085 | 4,321 |
| 1954 | 3,230 | 4,111 |
| 1953 | 5,059 | 4,951 |
| 1952 | 4,337 | 5,283 |
| 1951 | 3,305 | 2,051 |
| 1950 | 4,853 | 3,280 |
| Before 1950 | 6,329 | 4,772 |
| Total | 121,436 | 109,766 |

SUMMARY OF THE TOTAL NUMBER OF ALL TESTS RUN ON COAL SAMPLES DURING THE YEAR OF 1983

| | |
|---------------------|-----|
| January | 140 |
| February | 70 |
| March | 63 |
| April | 56 |
| May | 56 |
| June | 70 |
| July | 28 |
| August | 56 |
| September | 56 |
| October | 77 |
| November | 77 |
| December | 70 |
| Total | 819 |

SUMMARY OF THE NUMBER OF COAL SAMPLES BY YEAR SINCE THE INCEPTION OF THE COAL PROGRAM THRU THE YEAR OF 1983

| | |
|-----------------|-------|
| *1962 | 298 |
| *1963 | 236 |
| *1964 | 528 |
| *1965 | 714 |

**GENERAL DESCRIPTION
TRAINING DIVISION
DEPARTMENT OF MINES AND MINERALS**

The Department, in 1971, established the Safety Training Division to provide instruction for miners in the safety aspect of coal mining and to implement any new training objectives that might be desirable and feasible. The Division consists of two full-time state mine inspectors, two part-time state mine inspectors, two secretaries and a training coordinator. Instruction is offered at 10 to 12 different locations throughout the state, normally at state or public offices.

Although the training is available to all coal miners, the instruction is attended primarily by those personnel desiring to obtain certificates of competency as mine examiner, mine manager, hoisting engineer, state mine inspector, surface mine supervisors, and shaft and slope examiners and supervisors. Certification is required by law (Chapter 93, Illinois Revised Statutes) for those personnel holding such positions.

The instruction offered deals with first aid, mine rescue techniques, accident prevention, state and federal mining laws, ventilation, roof and rib control, electricity, safety instrumentation, etc. Upon conclusion of the course, which is held twice annually, the Department (including the Mining Board) administers examinations, both oral and written, to those personnel desiring certificates. The site for such examinations is at designated locations.

Under authority of the Federal Coal Mine Health and Safety Act of 1969, the Bureau of Mines (now referred to as MSHA in regard to regulation enforcement) established mandatory safety standards for the mining industry. In conjunction with these standards certain mine training requirements were established. Since state and federal objectives were similar, the Department applied for a federal grant in April of 1971. Grant approval was obtained and the first renumeration was received in April of 1972 based on the federal government reimbursing 80% of the funds which had been expended for training. The grant program has been extended from time to time. Progress reports, fund accounting, etc. are a part of the Division's function.

The Department trains and instructs, and also issues certificates of competency for metal mine foreman, metal mine hoisting engineer and state metal mine inspector. Examinations are also given to establish the proficiency of mine rescue station supervisors and their assistants.

GENERAL DESCRIPTION EXPLOSIVES DIVISION

DEPARTMENT OF MINES & MINERALS

Explosive materials are essential tools in our modern society. They play some part-direct or indirect-in practically everything that we build, make, use and enjoy. The most common usage in Illinois is incidental to mining, quarrying, road building, usage on farms and similar operations. Without them, available where and when they are needed, individuals, public work and private enterprises would be badly hampered. To facilitate and safeguard their proper manufacture, transportation, use and sale is in the best interest of each community and the state.

The Department, in July 1971, established the Explosive Division as a result of the State Legislature passing Senate Bill #44, known as the Explosives Licensing Act. Such Act supplemented an Act which had been administrated by the Department since July 12, 1939 dealing with the manufacture, possession, storage, transportation, use, sale and gift of explosives. Headquarters for the section was established at the Mine Rescue Station and Analytical Laboratory Building located at 503 East Main Street, Benton, Illinois.

Licensing provisions of the original explosives act dealt primarily with explosive storage magazines. To provide a more comprehensive explosive law the provisions of the 1971 act dealt with licensing of individuals who wish to use or possess explosives. The statutes call for applicant interview, examination, etc. There were 892 - 1983 Certificates issued for explosives storage and 712 explosive licenses issued to individuals in 1983.

Three explosive inspectors constitute the division field personnel. In addition to those inspections performed in conjunction with the licensing procedure described above inspections are made at the following places to insure compliance with the law; all explosive dealers, all explosive manufactures, manufacturing plants and many explosive users.

Many varied services, investigations and inspections are performed in conjunction with enforcement of the law. During the course of a year inspectors perform about 1700 inspections and initiate between 100 and 300 corrections. Although the section does not maintain a staff to accumulate statistical data on explosives such information is available from the office of the Federal Bureau of Investigation and the Bureau of Alcohol, Tobacco and Firearms.

EXPLOSIVES LICENSES ISSUED — 1983

| License Number | Name of Applicant | Applicant's Address | County | Expiration Date | Fee |
|----------------|--------------------------------|--|----------------------|-----------------|--------|
| 000 001 | Daniel D. Graff | Route #1, Box 213, Ava, IL | Jackson | 11-5-84 | \$5.00 |

1983 Annual Oil and Gas Report

DEPARTMENT OF MINES AND MINERALS

DIVISION OF OIL AND GAS

William G. Stratton Office Building, Room 704
400 South Spring Street
Springfield, Illinois 62706

George R. Lane, Petroleum Engineer

OIL AND GAS BOARD

Chairman: Brad Evilsizer, Director of the Department of Mines
and Minerals

Members: R. L. Van Fossan, Collinsville, Illinois
Richard Thomas, Olney, Illinois
John Homeier, Springfield, Illinois
Edwin C. Prasuhn, Fairfield, Illinois

Petroleum Engineer G. R. Lane, 100 Andover Drive,
Springfield, Illinois

Secretary Judy Voyles, 301 W. Scarritt,
Springfield, Illinois

Clerk Dianne Vose, 2036 N. 7th,
Springfield, Illinois

Secretary Judy Schafer, 528 Circle Dr.,
Pleasant Plains, Illinois

Clerk Stenographer Carolyn Heninger, R. R. #2,
Taylorville, Illinois

Clerk Gary Gray, 3107 Rita Ave.,
Springfield, Illinois

Clerk Typist Teresa Wohler, R. R. #8,
E. Lake Drive,
Springfield, Illinois

Clerk Stenographer Serena Ruble, R. R. #1,
Tallula, Illinois

DIVISION OF OIL AND GAS

The Division of Oil and Gas of the Department of Mines and Minerals is required to enforce the provisions of "An Act in Relation to Oil, Gas, Coal and Other Surface and Underground resources," and the Rules and Regulations formulated pursuant to the provisions of the Act.

It is the duty of the Division to see that oil wells are properly spaced; to control the drilling and plugging of oil wells and wells drilled in connection therewith; to see that necessary precautions are observed to protect the workable coal seams through which wells are drilled and to prevent pollution of land and fresh water supplies resulting from oil field operations.

Permits must be obtained from the Division of Oil and Gas before wells are drilled for oil, gas, water supply, water input, gas input, air input, salt water disposal, and structure test. In 1983, 5,929 such permits were issued. The Law requires that for each well drilled or acquired, the operator must furnish the Division with Bond coverage to guarantee the eventual plugging of the well with the satisfactory restoration of the well site. The State oil well inspectors are in attendance to supervise the plugging of all abandoned drill holes, which in 1983 numbered 1,961.

The Division furnishes copies of permits and plugging affidavits to the State Geological Survey, and is charged with the responsibility to seeing that well logs and cuttings are sent to the Survey. The Division also receives and records completion data on wells drilled.

The Rules and Regulations of the Division provide for the calling of public hearings, upon written request of any interested person, for the purpose of taking action with regard to any matter within the jurisdiction of the Department. All such hearings are made of record in the Division and are open to public inspection.

The Oil and Gas Board consists of four members and the Director of the Department, and is subject to call by the Mining Board for advice and consultation on matters pertaining to the oil and gas industry.

THE MOST ACTIVE OPERATORS IN ILLINOIS DURING 1983 ON THE BASIS OF OIL PERMITS ISSUED

| | |
|--------------|---|
| FIRST: | Marathon Oil Company, P.O. Box 277, Bridgeport, Illinois 62417 |
| SECOND: | Longhorn Resources, Inc., P.O. Box 1111, Mineral Wells, Texas 76067 |
| THIRD: | Black Star Petroleum Corp., 2743 Long Beach Road, Oceanside, New York 11572 |
| FOURTH: | Homco, Ltd., P.O. Box 3312, Springfield, Illinois 62708 |
| FIFTH: | Exxon Corp., 2000 Classen Center, East, Oklahoma City, Oklahoma 73106 |
| SIXTH: | Jasper Oil Producers, Inc., P.O. Box 3785, Round Barn Centre, Champaign, Illinois 61821 |
| SEVENTH: | Texas Gas & Oil Company, Route #1, Box 135, Mineral Wells, Texas 76067 |
| EIGHTH: | Christa Oil Company, P.O. Box 637, Robinson, Illinois 62454 |
| NINTH: | Elmer Oelze, Jr., R.R. #1, Nashville, Illinois 62263 |
| TENTH: | Richard W. Beeson, Box 2777, 1018 Lincoln Avenue, Evansville, Indiana 47714 |
| ELEVENTH: | McDowell Brothers Oil Co., 220 W. Church St., Box 158, West Salem, Illinois 62476 |
| TWELFTH: | Omega Oil Corp., 2421 Willowbrook Pkwy., Suite 522, Indianapolis, Indiana 46205 |
| THIRTEENTH: | Hocking Oil Co., Inc., P.O. Box 162, Mt. Carmel, Illinois 62863 |
| FOURTEENTH: | The Superior Oil Company, P.O. Box 31, Crossville, Illinois 62827 |
| FIFTEENTH: | W. L. Belden Trust, P.O. Box 158, St. Elmo, Illinois 62458 |
| SIXTEENTH: | Van Fossan Oil Associates, 400 N. Bluff, P.O. Box 472, Collinsville, Illinois 62234 |
| SEVENTEENTH: | Triple G Oil Co., Ltd., P.O. Box 631, Mundelein, Illinois 60060 |
| EIGHTEENTH: | John Carey Oil Co., Inc., 4140 Grand Ave., P.O. Box 10339, Des Moines, Iowa 50306 |

**STATE OF ILLINOIS
DEPARTMENT OF MINES AND MINERALS
DIVISION OF OIL AND GAS
SPRINGFIELD, ILLINOIS**

In the matter of the application of Huge Oil, Inc. to form a 20-acre drilling unit and to authorize the drilling of the Roger Hubele Comm. #3 well located in Section 15, Township 5 South, Range 8 East, White County, Illinois.

HEARING ORDER
No. 279

The State Mining Board considered the above matter on February 15, 1983 in the Office of the Division of Oil and Gas, Room 704, Stratton Office Building, Springfield, Illinois. The objector has waived a hearing and requested that the State Mining Board issue a order in accordance with the provisions of Section 22.2 (a) of "An Act in Relation to Oil, Gas, Coal and Other Surface and Underground Resources and Rules and Regulations".

The objector having waived the hearing, the State Mining Board, after consideration of the application and supporting evidence in the matter, entered an integration order to establish a 20-acre drilling unit lying in the Southwest quarter of the Northeast quarter to authorize the drilling of a well to be known as the Roger Hubele Comm. #3 well located:

330 feet South and 330 feet East of the Northwest corner of the Southwest quarter of the Northeast quarter of Section 15, Township 5 South, Range 8 East, White County, Illinois,

finds:

1. That in the interest of conservation and in the protection of the correlative rights of those interested in the development of the pool, that the application of Huge Oil, Inc. should be granted.
2. That the parties involved should integrate their interest in their development of their lands.

IT IS THEREFORE ORDERED that a drilling unit consisting of 20 acres lying in the Southwest quarter of the Northeast quarter of Section 15, Township 5 South, Range 8 East, White County, Illinois, is established and the Huge Oil, Inc. is authorized to drill a well on said drilling unit to be known as the Roger Hubele Comm. #3 and to be located 330 feet South and 330 feet East of the Northwest corner of the Southwest quarter of the Northeast quarter of Section 15, Township 5 South, Range 8 East, White County, Illinois, and that the parties involved shall integrate their interests and develop their lands as the aforesaid drilling unit.

IT IS FURTHER ORDERED that Huge Oil Company shall drill the said well and that Donahue Oil Company shall participate in the drilling unit described above to the extent of 1/8th of the 7/8ths working interest. The participation factor shall be in accordance with Section 22.2 (d) of "An Act in Relation to Oil, Gas, Coal and Other Surface and Underground Resources and Rules and Regulations", being a part of Chapter 96½ of the Illinois Revised Statutes. The participation factor is determined to be:

1. 12.5% of the costs and expenses of all surface equipment and 12.5% of the costs and operating the well concerned with the first production to be borne by Donahue Oil Company and 87.5% of the costs and expenses of all surface equipment and 87.5% of the costs of operating the well concerned with the first production to be borne by Huge Oil, Inc.
2. 18.75% of the actual costs and expenses of drilling, testing and completing the well to be borne by Donahue Oil Company and 81.25% of actual costs of drilling, testing and completing said well to be borne by Huge Oil, Inc.

If you have any questions pertaining to this matter, please contact Mr. George R. Lane, Petroleum Engineer, whose telephone number is 217-782-7756.

DATED at Springfield, Sangamon County, Illinois, this 16th day of February, A.D., 1983.

BY ORDER OF THE STATE MINING BOARD:

George R. Lane
Mining Board Representative

**STATE OF ILLINOIS
DEPARTMENT OF MINES AND MINERALS
DIVISION OF OIL AND GAS
SPRINGFIELD, ILLINOIS**

In the matter of the application of Greer Energy Company for integration of separately owned interests in the Terrance Markert Community #1-A well in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 30, Township 1 South, Range 3 West, Brown County, Illinois.

HEARING ORDER
No. 280

REPORT OF THE MINING BOARD

On January 27, 1983, Greer Energy Company, A Colorado Corporation, pursuant to the provisions of Illinois Revised Statutes, c96 $\frac{1}{2}$, Section 5436 (1981) filed an Application with the Department of Mines and Minerals for an Order providing for the integration of separately owned interests in the Terrance Markert Community #1-A well in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 30, Township 1 South, Range 3 West, Brown County, Illinois.

Before hearing, Applicant moved to continue the hearing until 10:00 A.M., February 17, 1983.

After due notice as provided by statute and by the Rules and Procedures for Public Hearings before the Department of Mines and Minerals, a public hearing was held on said Petition on February 17, 1983, in the City of Springfield, Illinois. At said hearing before the Department of Mines and Minerals, the Applicant submitted proof, exhibits, evidence and testimony relating to the drilling and operation of the proposed oil and gas well and the refusal of Terrance Jon Markert to integrate his interests and recommended that the Application of Greer Energy Company for Integration of Separately Owned Interests in the Terrance Markert Community #1-A well located 330 feet North and 330 feet East of the Southwest corner of the Southwest quarter of the Northwest quarter of the Southeast quarter of Section 30, Township 1 South, Range 3 West of the 4th Principal Meridian, Brown County, Illinois be approved by the Department of Mines and Minerals. Other interested parties were afforded an opportunity to be heard in connection therewith. The Department of Mines and Minerals examined and considered the information contained in the following Illinois Well Completion Reports on file in its office:

- a. From Calhoun Research and Development covering the well named and numbered Markert #10 located 330 feet South and 330 feet West of the Northeast corner of the Southeast quarter of the Southwest quarter of Section 30, Township 1

South, Range 3 West, of the 4th Principal Meridian, Brown County, Illinois.

- b. From Calhoun Research and Development covering the well named and numbered Markert #6 located 330 feet South and 330 feet East of the Northwest corner of the Southeast quarter of the Southwest quarter of the Southeast quarter of Section 30, Township 1 South, Range 3 West of the 4th Principal Meridian, Brown County, Illinois.
- c. From Calhoun Research and Development covering the well named and numbered Markert #4 located 330 feet South and 330 feet East of the Northwest corner of the Southeast quarter of the Southeast quarter of the Southwest quarter of Section 30, Township 1 South, Range 3 West, of the 4th Principal Meridian, Brown County, Illinois.

FINDINGS OF FACT

The Department of Mines and Minerals finds:

1. That the oil and gas underlying the following described real estate:

**TOWNSHIP 1 SOUTH, RANGE 3 WEST OF THE
FOURTH PRINCIPAL MERIDIAN, BROWN COUNTY,
ILLINOIS:**

Section 30: 20 acres off the South side of the S½ NE¼ except ½ acre, more or less, as enclosed by fence now used for school purposes in the SE corner of said tract; NW¼ SE¼; and NE¼ SE¼, except a tract of land used for burial ground 36 feet square located near the East margin of said NE¼ SE¼ and equal distance from the North and South lines of said quarter-quarter section;

containing 99.50 acres, more or less,

are owned as follows:

**THE FEDERAL LAND BANK
OF ST. LOUIS
TERRANCE JON MARKERT**

—Undivided 1/2

—Undivided 1/2

2. That said lands are subject to an Oil and Gas Lease dated June 29, 1982, recorded July 15, 1982 in Oil and Gas Record No. 1 at page 388 in the Office of the Recorder, Brown County, Illinois, from The Federal Land Bank of St. Louis, Lessor to Greer Energy Company, Lessee.

3. That Terrance Jon Markert has refused to integrate his interests in said oil and gas with the interests of Greer Energy Company.

4. That Greer Energy Company has made application to the Mining Board for authorization to drill a well located 330 feet North and 330 feet East of the Southwest corner of the Southwest quarter of the Northwest quarter of the Southeast quarter of said Section 30 and a separate application for an Order integrating separately owned interests in the Terrance Markert Community #1-A in the Southwest quarter of the Northwest quarter of the Southeast quarter of Section 30, Township 1 South, Range 3 West of the 4th Principal Meridian, Brown County, Illinois.

5. That the drilling unit for said well is the Southwest quarter of the Northwest quarter of the Southeast quarter of said Section 30 aforesaid.

6. That no action has been commenced seeking permission to drill said unit pursuant to the provisions of "An Act in Relation to Oil and Gas Interests in Land," approved July 1, 1939, as amended.

7. That any oil and gas underlying the Southwest quarter of the Northwest quarter of the Southeast quarter of said Section 30 will be drained by the well named and numbered Markert #10 located in the Northeast quarter of the Southeast quarter of the Southwest quarter of Section 30 aforesaid unless the aforesaid Terrance Markert Community #1-A well is drilled and placed on production.

8. That it is necessary for the prevention of waste and to avoid the drilling of unnecessary wells to require Terrance Jon Markert to integrate his interests in said oil and gas in and to develop the Southwest quarter of the Northwest quarter of the Southeast quarter of Section 30 aforesaid as a drilling unit.

9. That Greer Energy Company should drill, equip and operate the Terrance Markert Community #1-A in the Southwest quarter of the Northwest quarter of the Southeast quarter of Section 30 aforesaid and recover a proportion of its costs of drilling, testing, completing and operating said well from Terrance Jon Markert.

CONCLUSIONS OF LAW

That Illinois Revised Statutes, c96½, Section 5436 (1981) applies to the application of Greer Energy Company and these proceedings before the Department of Mines and Minerals.

That the Department of Mines and Minerals has jurisdiction of the subject matter and the persons interested therein; that due and

proper notices of the application and of the time, place and purpose of the hearing were given as required by law, that all interested parties were afforded an opportunity to be heard therein;

That in the interest of obtaining the benefits of integrated production, the prevention of waste, and the protection of correlative rights, this application should be granted.

ORDER OF THE DEPARTMENT OF MINES AND MINERALS

IT IS, THEREFORE, ORDERED by the Department of Mines and Minerals as follows:

A. That the Application of Greer Energy Company be granted and that the interest of Greer Energy Company, The Federal Land Bank of St. Louis and Terrance Jon Markert in the well drilling unit described as follows:

TOWNSHIP 1 SOUTH, RANGE 3 WEST OF THE
FOURTH PRINCIPAL MERIDIAN, BROWN COUNTY,
ILLINOIS:

Section 30: SW $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$

known as the Terrance Markert Community #1-A are hereby integrated for the purpose of drilling, testing, completing and operating an oil and gas well.

B. That Terrance Jon Markert shall receive as his share of production a royalty of $\frac{1}{2} \times \frac{1}{8}$ of the oil and gas produced, saved and marketed from the Terrance Markert Community #1-A until his market share of the production, exclusive of such royalty, equals:

1. 150% of his proportionate one-half ($\frac{1}{2}$) of the actual costs and expenses of drilling, testing and completing said well,
2. 100% of his proportionate one-half ($\frac{1}{2}$) of the cost and expense of all surface equipment, and
3. 100% of his proportionate one-half ($\frac{1}{2}$) of the cost of operating the well commencing with the first production.

C. That Greer Energy Company shall first recover from the proportionate one-half ($\frac{1}{2}$) of Terrance Jon Markert, except $\frac{1}{2} \times \frac{1}{8}$, of the oil and gas produced, saved and marketed, the following:

1. 150% of Terrance Jon Markert's proportionate one-half ($\frac{1}{2}$) of the actual costs and expenses of drilling, testing and completing said well,

2. 100% of Terrance Jon Markert's proportionate one-half (1/2) of the costs and expense of all surface equipment, and
3. 100% of Terrance Jon Markert's proportionate one-half (1/2) of the cost of operating the Terrance Markert Community #1-A commencing with the first production.

D. That after Greer Energy Company has recovered 150% of one-half (1/2) of the actual costs and expenses of drilling, testing and completing said well and 100% of one-half (1/2) of the costs and expense of all surface equipment, the purchaser of the oil produced, saved and marketed from said drilling unit shall pay Terrance Jon Markert a royalty of one-half (1/2) of the oil and gas produced, saved and marketed from the Terrance Markert Community #1-A less 100% of his proportionate one-half (1/2) of the cost of operating the Terrance Markert Community #1-A commencing with the first production.

E. That the purchaser of the oil produced, saved and marketed from said drilling unit is authorized and directed to pay said sums due Greer Energy Company out of the proportionate one-half (1/2) interest of Terrance Jon Markert upon presentation of detailed billings for actual costs verified by an officer of Greer Energy Company.

F. That integration of the interest of Greer Energy Company, The Federal Land Bank of St. Louis and Terrance Jon Markert in the following described drilling unit:

TOWNSHIP 1 SOUTH, RANGE 3 WEST OF THE
FOURTH PRINCIPAL MERIDIAN, BROWN COUNTY,
ILLINOIS:

SECTION 30: SW $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$

are hereby made effective the date of this Order.

The Department of Mines and Minerals retains continuing jurisdiction over the Terrance Markert Community #1-A in order that it may exercise such administrative control as is consistent with its powers and duties as established by the statutes of the State of Illinois.

Signed, Ordered and Published this 22nd day of March, 1983.

BY ORDER OF THE STATE MINING BOARD:

George R. Lane
Mining Board Representative

**STATE OF ILLINOIS
DEPARTMENT OF MINES AND MINERALS
DIVISION OF OIL AND GAS
SPRINGFIELD, ILLINOIS**

In the matter of the application of Greer Energy Company for integration of separately owned interests in the Terrance Markert Community #1-A well in the SW $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 30, Township 1 South, Range 3 West, Brown County, Illinois.

} **SUPPLEMENTAL
HEARING ORDER
No. 280**

SUPPLEMENTAL REPORT OF THE MINING BOARD

On the 22nd day of March, 1983 the Mining Board ordered integration of the interests of GREER ENERGY COMPANY, THE FEDERAL LAND BANK OF ST. LOUIS and TERRANCE JON MARKERT in the following-described drilling unit:

TOWNSHIP 1 SOUTH, RANGE 3 WEST OF THE
FOURTH PRINCIPAL MERIDIAN, BROWN COUNTY,
ILLINOIS:

SECTION 30: SW $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$.

The DEPARTMENT OF MINES AND MINERALS retained continuing jurisdiction over the Terrance Markert Community #1-A in its said Order.

The Findings of Fact and Order of the DEPARTMENT OF MINES AND MINERALS were premised upon the stipulation of TERRANCE JON MARKERT and GREER ENERGY COMPANY that the oil and gas underlying the aforesaid land was owned as follows:

THE FEDERAL LAND BANK
OF ST. LOUIS

—Undivided 1/2

TERRANCE JON MARKERT

—Undivided 1/2

Now GREER ENERGY COMPANY has notified the MINING BOARD that the true ownership of said oil and gas is as follows:

THE FEDERAL LAND BANK
OF ST. LOUIS

—Undivided 1/2

TERRANCE JON MARKERT

—Undivided 3/8

MARY E. MARKERT

—Undivided 1/8

After due notice as provided by statute and by the Rules and Procedures for Hearings before the Department of Mines and Minerals, a supplemental hearing was held on the original Petition on June 22, 1983 in the City of Springfield, Illinois. At said hearing before the DEPARTMENT OF MINES AND MINERALS, the applicant submitted proof, exhibits, evidence and testimony relating to the refusal of TERRANCE JON MARKERT and MARY E. MARKERT to integrate their interests and recommended that the Report of the MINING BOARD, Findings of Fact and Orders of the DEPARTMENT OF MINES AND MINERALS dated March 22, 1983 be amended to integrate the separately owned interest of MARY E. MARKERT in the Terrance Markert Community #1-A well located:

330 feet North and 330 feet East of the Southwest Corner of the Southwest Quarter of the Northwest Quarter of the Southeast Quarter (SW¼ NW¼ SE¼) of Section 30, Township 1 South, Range 3 West of the 4th Principal Meridian, Brown County, Illinois.

Other interested parties were afforded an opportunity to be heard in connection therewith. The DEPARTMENT OF MINES AND MINERALS examined and considered the following:

1. A certified copy of an Executor's Deed dated February 18, 1971, recorded in Book 223 at page 49 in the Office of the Recorder, Brown County, Illinois, conveying the subject oil and gas and other property to Anthony Lee Markert and Terrance Jon Markert as tenants in common, and
2. A certified copy of a Warranty Deed dated March 2, 1979, recorded in Book 236 at page 377 in the Office of the Recorder, Brown County, Illinois, from Anthony Lee Markert and Susan E. Markert to Terrance Jon Markert and Mary E. Markert as tenants in common covering an undivided one-half interest in the subject oil and gas and other property.

SUPPLEMENTAL FINDINGS OF FACT

The DEPARTMENT OF MINES AND MINERALS finds:

1. That the oil and gas underlying the following-described real estate:

TOWNSHIP 1 SOUTH, RANGE 3 WEST OF THE
FOURTH PRINCIPAL MERIDIAN, BROWN COUNTY,
ILLINOIS:

SECTION 30: 20 acres off the South side of the S $\frac{1}{2}$ NE $\frac{1}{4}$ except $\frac{1}{2}$ acre, more or less, as enclosed by fence now used for school purposes in the SE Corner of said tract; NW $\frac{1}{4}$ SE $\frac{1}{4}$; and NE $\frac{1}{4}$ SE $\frac{1}{4}$, except a tract of land used for burial ground 36 feet square located near the East margin of said NE $\frac{1}{4}$ SE $\frac{1}{4}$ and equal distance from the North and South lines of said quarter-quarter section;

containing 99.50 acres, more or less,

are owned as follows:

THE FEDERAL LAND BANK

OF ST. LOUIS

—Undivided 1/2

TERRANCE JON MARKERT

—Undivided 3/8

MARY E. MARKERT

—Undivided 1/8

2. That said lands are subject to an Oil and Gas Lease dated June 29, 1982, recorded July 15, 1982 in Oil and Gas Record No. 1 at page 388 in the Office of the Recorder, Brown County, Illinois, from The Federal Land Bank of St. Louis, Lessor to Greer Energy Company, Lessee.

3. That TERRANCE JON MARKERT and MARY E. MARKERT have refused to integrate their interests in said Oil and Gas Lease with the interests of THE FEDERAL LAND BANK OF ST. LOUIS and GREER ENERGY COMPANY.

4. That the DEPARTMENT OF MINES AND MINERALS heretofore entered its Order integrating the interests of TERRANCE JON MARKERT, THE FEDERAL LAND BANK OF ST. LOUIS and GREER ENERGY COMPANY.

5. That the drilling unit for said well is the Southwest Quarter of the Northwest Quarter of the Southeast Quarter of said Section 30 aforesaid.

6. That no action has been commenced seeking permission to drill said unit pursuant to the provisions of "An Act in Relation to Oil and Gas Interests in Land," approved July 1, 1939, as amended.

7. That any oil and gas underlying the Southwest Quarter of the Northwest Quarter of the Southeast Quarter of said Section 30 will be drained by the well named and numbered Markert #10 located in the Northeast Quarter of the Southeast Quarter of the Southwest Quarter of Section 30 aforesaid unless the aforesaid Terrance Markert Community #1-A well is drilled and placed on production.

8. That it is necessary for the prevention of waste and to avoid the drilling of unnecessary wells to require MARY E. MARKERT to integrate her interest in said oil and gas in and to develop the Southwest Quarter of the Northwest Quarter of the Southeast Quarter of Section 30 aforesaid as a drilling unit.

9. That Greer Energy Company should drill, equip and operate the Terrance Markert Community #1-A in the Southwest Quarter of the Northwest Quarter of the Southeast Quarter of Section 30 aforesaid and recover a proportion of its costs of drilling, testing, completing and operating said well from MARY E. MARKERT.

CONCLUSIONS OF LAW

That Illinois Revised Statutes, c96½, Section 5436 (1981) applies to the application of GREER ENERGY COMPANY and these proceedings before the DEPARTMENT OF MINES AND MINERALS.

That the DEPARTMENT OF MINES AND MINERALS has jurisdiction of the subject matter and the persons interested therein; that due and proper notices of the application and of the time, place and purpose of the hearing were given as required by law, that all interested parties were afforded an opportunity to be heard therein;

That in the interest of obtaining the benefits of integrated production, the prevention of waste, and the protection of correlative rights, this application should be granted.

SUPPLEMENTAL ORDER OF THE DEPARTMENT OF MINES AND MINERALS

IT IS, THEREFORE, ORDERED by the DEPARTMENT OF MINES AND MINERALS as follows:

A. That the interests of MARY E. MARKERT are hereby integrated with the interests of GREER ENERGY COMPANY, THE FEDERAL LAND BANK OF ST. LOUIS and TERRANCE JON MARKERT for the purpose of drilling, testing, completing and operating an oil and gas well on the well drilling unit described as follows:

TOWNSHIP 1 SOUTH, RANGE 3 WEST OF THE
FOURTH PRINCIPAL MERIDIAN, BROWN COUNTY,
ILLINOIS:

SECTION 30: SW¼ NW¼ SE¼
known as the Terrance Markert Community #1-A.

B. That TERRANCE JON MARKERT and MARY E. MARKERT shall receive as their share of production and royalty the following:

| | |
|----------------------|------------------|
| TERRANCE JON MARKERT | $3/8 \times 1/8$ |
| MARY E. MARKERT | $1/8 \times 1/8$ |

of the oil and gas produced, saved and marketed from the Terrance Markert Community #1-A until their market share of the production, exclusive of such royalty, equals:

1. 150% of their proportionate one-half (1/2) of the actual costs and expenses of drilling, testing and completing said well.
2. 100% of their proportionate one-half (1/2) of the cost and expense of all surface equipment, and
3. 100% of their proportionate one-half (1/2) of the cost of operating the well commencing with the first production.

C. That GREER ENERGY COMPANY shall first recover from the proportionate three-eighths (3/8) of TERRANCE JON MARKERT, except $3/8 \times 1/8$, of the oil and gas produced, saved and marketed, the following:

1. 150% of TERRANCE JON MARKERT's proportionate three-eighths (3/8) of the actual costs and expenses of drilling, testing and completing said well,
2. 100% of TERRANCE JON MARKERT's proportionate three-eighths (3/8) of the costs and expense of all surface equipment, and
3. 100% of TERRANCE JON MARKERT's proportionate three-eighths (3/8) of the cost of operating the Terrance Markert Community #1-A commencing with the first production.

D. That GREER ENERGY COMPANY shall first recover from the proportionate one-eighth (1/8) of MARY E. MARKERT, except $1/8 \times 1/8$, of the oil and gas produced, saved and marketed, the following:

1. 150% of MARY E. MARKERT's proportionate one-eighth (1/8) of the actual costs and expenses of drilling, testing and completing said well,
2. 100% of MARY E. MARKERT's proportionate one-eighth (1/8) of the costs and expense of all surface equipment, and
3. 100% of MARY E. MARKERT's proportionate one-eighth (1/8) of the cost of operating the Terrance Markert Community #1-A commencing with the first production.

E. That after GREER ENERGY COMPANY has recovered 150% of one-half (1/2) of the actual costs and expenses of drilling, testing and completing said well and 100% of one-half (1/2) of the costs and expense of all surface equipment, the purchaser of the oil produced, saved and marketed from said drilling unit shall pay TERRANCE JON MARKERT a royalty of three-eighths (3/8) and MARY E. MARKERT a royalty of one-eighth (1/8) of the oil and gas produced, saved and marketed from the Terrance Markert Community #1-A less 100% of their proportionate one-half (1/2) of the cost of operating the Terrance Markert Community #1-A commencing with the first production.

F. That the purchaser of the oil produced, saved and marketed from said drilling unit is authorized and directed to pay said sums due GREER ENERGY COMPANY out of the proportionate three-eighths (3/8) interest of TERRANCE JON MARKERT and one-eighth (1/8) interest of MARY E. MARKERT upon presentation of detailed billings for actual costs verified by an officer of GREER ENERGY COMPANY.

G. That integration of the interests of MARY E. MARKERT with the interests of GREER ENERGY COMPANY, THE FEDERAL LAND BANK OF ST. LOUIS and TERRANCE JON MARKERT in the following-described drilling unit:

TOWNSHIP 1 SOUTH, RANGE 3 WEST OF THE
FOURTH PRINCIPAL MERIDIAN, BROWN COUNTY,
ILLINOIS:

SECTION 30: SW $\frac{1}{4}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$

is hereby made effective the date of this Order.

The DEPARTMENT OF MINES AND MINERALS retains continuing jurisdiction over the Terrance Markert Community #1-A in order that it may exercise such administrative control as is consistent with its powers and duties as established by the statutes of the State of Illinois.

Signed, Ordered and Published this 24th day of June, 1983.

BY ORDER OF THE STATE MINING BOARD:

George R. Lane
Mining Board Representative

**STATE OF ILLINOIS
DEPARTMENT OF MINES AND MINERALS
DIVISION OF OIL AND GAS
SPRINGFIELD, ILLINOIS**

In the matter of the application of John Prior to form a 20-acre drilling unit and to authorize the drilling of the Chesney-Comm. #1 well located in Section 28, Township 1 North, Range 5 East, Wayne County, Illinois.

} HEARING ORDER
No. 281

The State Mining Board considered the above matter on April 18, 1983 in the Office of the Division of Oil and Gas, Room 704, Stratton Office Building, Springfield, Illinois. The objector has waived a hearing and requested that the State Mining Board issue an order in accordance with the provisions of Section 22.2 (a) of "An Act in Relation to Oil, Gas, Coal and Other Surface and Underground Resources and Rules and Regulations".

The objector having waived the hearing, the State Mining Board, after consideration of the application and supporting evidence in the matter, entered an integration order to establish a 20-acre drilling unit lying in the Southwest quarter of the Northwest quarter to drill the following described well to be known as:

Chesney Comm. #1 well located 330 feet North and 330 feet East of the Southwest corner of the Northwest quarter of Section 28, Township 1 North, Range 5 East, Wayne County, Illinois,

finds:

1. That in the interest of conservation and in the protection of the correlative rights of those interested in the development of the pool, that the application of John Prior should be granted.
2. That the parties involved should integrate their interest in their development of their lands.

IT IS THEREFORE ORDERED that a drilling unit consisting of 20 acres lying in the Southwest quarter of the Northwest quarter of Section 28, Township 1 North, Range 5 East, Wayne County, Illinois, is established and John Prior is authorized to drill a well on said drilling unit to be known as the Chesney Comm. #1 well to be located 330 feet North and 330 feet East of the Southwest corner of the Northwest quarter of Section 28, Township 1 North, Range 5 East, Wayne County, Illinois, and that the parties involved shall integrate their interests and develop their lands as the aforesaid drilling unit.

IT IS FURTHER ORDERED that John Prior shall drill the said well and that Collins Brothers Oil Company shall participate in the drilling unit described above to the extent of 6% of 7/8ths working interest and to the extent of 6% of the 1/8th royalty interest in the drilling unit. The participation factor shall be in accordance with Section 22.2 (d) of "An Act in Relation to Oil, Gas, Coal and Other Surface and Underground Resources and Rules and Regulations", being a part of Chapter 96½ of the Illinois Revised Statutes. The participation factor is determined to be:

1. 6% of the costs and expenses of all surface equipment and 6% of the costs and operating the well concerned with the first production to be borne by Collins Brothers Oil Company and 94% of the costs and expenses of all surface equipment and 94% of operating the well concerned with the first production to be borne by John Prior.
2. 9% of the actual costs and expenses of drilling, testing and completing the well to be borne by Collins Brothers Oil Company and 91% of actual costs of drilling, testing and completing said well to be borne by John Prior.

If you have any questions pertaining to this matter, please contact Mr. George R. Lane, Petroleum Engineer, whose telephone number is 217-782-7756.

DATED at Springfield, Sangamon County, Illinois, this 21st day of April, A.D., 1983.

BY ORDER OF THE STATE MINING BOARD:

George R. Lane
Mining Board Representative

**STATE OF ILLINOIS
DEPARTMENT OF MINES AND MINERALS
DIVISION OF OIL AND GAS
SPRINGFIELD, ILLINOIS**

In the matter of the application of Exxon Company, U.S.A., a division of Exxon Corporation, to form a 40-acre drilling unit and to authorize the drilling of the J. D. Lockwood Comm. #3 well located in Section 15, Township 6 South, Range 5 East of the Third Principal Meridian, Hamilton County, Illinois.

AMENDED
HEARING ORDER
No. 282

The State Mining Board considered the above matter on May 9, 1983, in the Office of the Division of Oil and Gas, Room 704, Stratton Office Building, Springfield, Illinois. The applicant, Exxon Company, U.S.A., a Division of Exxon Corporation, hereinafter "Exxon", appeared for the hearing and requested that the State Mining Board issue an order in accordance with the provisions of Section 22.2 (a), (b), (c) and (d) of "An Act in Relation to Oil, Gas, Coal and Other Surface and Underground Resources and Rules and Regulations".

The applicant had previously requested a hearing on this date and had provided the State Mining Board with all required addresses so that a notice of this hearing could be mailed at least ten (10) days prior to the date of the hearing pursuant to Rule 1 (13) (C) of the Rules and Regulations of the Department of Mines and Minerals for the Oil and Gas Division (approved and adopted November 7, 1951 and amended February 1, 1960, April 1, 1964 and December 23, 1966). The applicant presented the application and supporting evidence in the matter before the State Mining Board on May 9, 1983. After consideration of the application and supporting evidence in the matter, the State Mining Board entered an integration order to establish a 40-acre drilling unit lying the Southwest quarter of the Southeast quarter to authorize the drilling of a well to be known as the J. D. Lockwood Comm. #3 well located:

330 feet South and 660 feet West of the Northeast corner of the Southwest quarter of the Southeast quarter of Section 15, Township 6 North, Range 5 East, of the Third Principal Meridian, Hamilton County, Illinois.

The State Mining Board further finds:

1. That in the interest of conservation and in the protection of the correlative rights of those interested in the development of the pool that the application of Exxon should be granted.

2. That the parties involved should integrate their interest in their development of their lands.

IT IS THEREFORE ORDERED that a drilling unit consisting of 40 acres lying the the Southwest quarter of the Southeast quarter of Section 15, Township 6 North, Range 5 East of the Third Principal Meridian, Hamilton County, Illinois, is established and that Exxon is authorized to drill a well on said drilling unit to be known as the J. D. Lockwood Comm. #3 and to be located 330 feet South and 660 feet West of the Northeast corner of the Northeast quarter of the Southwest quarter of the Southeast quarter of Section 15, Township 6 North, Range 5 East of the Third Principal Meridian, Hamilton County, Illinois, and that the parties involved shall integrate their interests and develop their lands as the aforesaid drilling unit.

IT IS FURTHER ORDERED that Exxon shall drill, equip and operate the said well and that the participation of the other working interest owners as identified in Exhibit "A", attached hereto and made a part hereof, shall be made on or before July 15, 1983 and their participation in the drilling unit described above shall be in accordance with Section 22.2 (d) of "An Act in Relation to Oil, Gas, Coal and Other Surface and Underground Resources and Rules and Regulations", being a part of Chapter 96½ of the Illinois Revised Statutes. The participation factor is determined to be:

1. That percentage of the parties' interest in the East 1½ of the North 3 acres \times 1.584375% which is the portion of the 40-acre unit attributable to the unleased adjoined mineral interest owners in the East 1½ acres of the North 3 acres of the costs and expenses of all surface equipment and the parties' percentage of interest in the East 1½ acres \times 1.584375% of the cost of operating the well concerned with first production and 98.415625% of the costs and expenses of all surface equipment and 98.415625% of the cost of operating the well concerned with the first production to be borne by Exxon.
2. 98.415625% of the actual costs and expenses of drilling, testing and completing the well will be borne by Exxon and 1.584375% of the actual costs of drilling, testing and completing said well to be borne by those parties denominated in Exhibit "A", attached hereto and incorporated herein, as may elect to participate.

IT IS FURTHER ORDERED that Exxon may recover pursuant to Section 22.2 (d) of "An Act in Relation to Oil, Gas, Coal and Other Surface and Underground Resources and Rules and Regulations (1) 100% of a person's who elects to participate but does not pay his or her costs share of the costs and expenses of all surface equipment and 100% of each such person's share of the cost of operating the well commencing with the first production, and (2) 150% of the person's share of the actual cost and expenses of drilling, testing and completing said well.

If you have any questions pertaining to this matter, please contact Mr. George R. Lane, Petroleum Engineer, whose telephone number is 217-782-7756.

DATED at Springfield, Sangamon County, Illinois, this 13th day of July, A.D., 1983.

BY ORDER OF THE STATE MINING BOARD:

George R. Lane
Mining Board Representative

Enclosure (Exhibit "A")

**STATE OF ILLINOIS

DIVISION OF OIL AND GAS
SPRINGFIELD, ILLINOIS**

In the matter of the application of French Creek Company to convert to an enhanced recovery disposal well the George Spencer #1 well located in Section 22, Township 4 South, Range 10 East, White County, Illinois.

} HEARING ORDER
No. 283

This cause came on for hearing before the State Mining Board in the Stratton Office Building, Springfield, Illinois, at 9:30 A.M. Wednesday, June 22, 1983. Present for the hearing for the State Mining Board was Mr. George R. Lane, Hearing Officer. Also present were V. Louis Fiedler and Lawrence Fiedler on behalf of French Creek Company, the applicant. No one appeared on behalf of the objector.

The State Mining Board having considered the oral testimony submitted in said cause by witnesses duly and being fully advised in the matter finds:

That the application filed herein in accordance with Rule II-A of "An Act in Relation to Oil, Gas, Coal and Other Surface and Underground Resources and Rules and Regulations" for a permit to convert for salt water disposal purposes in the Warsaw formation the following described well:

George Spencer #1 well located 330 feet South and 330 feet East of the Northwest corner of Section 22, Township 4 South, Range 10 East, White County, Illinois,

shall be granted.

IT IS THEREFORE ORDERED that the application of French Creek Company to convert the above described well to an enhanced recovery disposal well is approved and a permit is granted.

If you have any questions pertaining to this matter, please contact Mr. George R. Lane, Petroleum Engineer, whose telephone number is 217-782-7756.

BY ORDER OF THE STATE MINING BOARD:

George R. Lane
Mining Board Representative

**STATE OF ILLINOIS
DEPARTMENT OF MINES AND MINERALS
DIVISION OF OIL AND GAS
SPRINGFIELD, ILLINOIS**

In the matter of the application of Ring Oil Company to form a 20 acre drilling unit and to authorize the drilling of the Pinaire Etal #2 well located in Section 9, Township 13 North, Range 5 West, Sangamon County, Illinois.

} **HEARING ORDER
No. 284**

This cause came on for hearing before the State Mining Board in the Stratton Office Building, Springfield, Illinois, at 10:30 A.M. Wednesday, June 22, 1983. Present for the hearing for the State Mining Board was Mr. George R. Lane, Hearing Officer. Also present were Donald J. Casper, Attorney at Law and George Ring on behalf of Ring Oil Company, the applicant. Appearances were also made by Dan Anderson and Eric Anderson, on behalf of John Carey Oil Company, Inc., the objector.

The State Mining Board having considered the oral testimony of witnesses duly sworn and being fully advised in the matter of the application of Ring Oil Company for an integration order to establish a 20 acre drilling and described as follows:

South Half of the Southwest quarter of the Northeast quarter to authorize the drilling of a well to be known as the Pinaire Etal #2 well to be located:

330 feet North and 330 feet East of the Southwest corner of the Southwest quarter of the Northeast quarter of Section 9, Township 13 North, Range 5 West, Sangamon County, Illinois,

finds:

1. That in the interest of conservation and in the protection of the correlative rights of those interested in the development of the pool, that the application of Ring Oil Company should be granted.
2. That the parties involved should integrate their interest in their development of their lands.

IT IS THEREFORE ORDERED that a drilling unit consisting of 20 acres and described as the South Half of the Southwest Quarter of the Northeast Quarter of Section 9, Township 13 North, Range 5 West, Sangamon County, Illinois, is established and that Ring Oil Company is authorized to drill a well on said drilling unit to be known as the Pinaire Etal #2 well and to be located 330 feet North and 330 feet East of the Southwest corner of the Southwest quarter

of the Northeast quarter of Section 9, Township 13 North, Range 5 West, Sangamon County, Illinois, and that the parties involved shall integrate their interests and develop their lands as the afore-said drilling unit.

If prior to commencement of drilling, the objector and operator agree to terms of participation in the well, these terms may be substituted for this forced integration order. If the objector elects to participate in the well he must enter into an agreement with the operator, and this agreement must be filed with the Mining Board prior to commencement of drilling of the well. Failure to reach an agreement will necessitate the participation to be on the following basis.

IT IS FURTHER ORDERED that Ring Oil Company shall drill the said well and that John Carey Oil Company, Inc. shall participate in the drilling unit described above to the extent of 12.25% of the 7/8ths working interest and to the extent of 12.25% of the 1/8th royalty interest in the drilling unit. The participation factor shall be in accordance with Section 22.2 (d) of "An Act in relation to Oil, Gas, Coal and Other Surface and Underground Resources and Rules and Regulations", being a part of Chapter 96½ of the Illinois Revised Statutes. The participation factor is determined to be:

1. 12.25% of the costs and expenses of all surface equipment and 12.25% of the costs of operating the well concerned with the first production to be borne by John Carey Oil Company, Inc.
2. 18.375% of actual costs and expenses of drilling, testing and completing the well to be borne by John Carey Oil Company, Inc.

If you have any questions pertaining to this matter, please contact Mr. George R. Lane, Petroleum Engineer, telephone number 217-782-7756.

DATED at Springfield, Sangamon County, Illinois, this 20th day of July, 1983.

BY ORDER OF THE STATE MINING BOARD:

George R. Lane
Mining Board Representative

**STATE OF ILLINOIS
DEPARTMENT OF MINES AND MINERALS
DIVISION OF OIL AND GAS
SPRINGFIELD, ILLINOIS**

In the matter of the application of Charles Higgins to form a drilling unit and to authorize the drilling of the Elmer Meyers Etal Unit #1 well in Section 10, Township 1 North, Range 14 West, Edwards County, Illinois.

HEARING ORDER
No. 285

This cause came on for hearing before the State Mining Board in the Stratton Office Building, Springfield, Illinois at 9:00 A.M. on the 25th day of July, 1983.

C. Michael Witters, Attorney at Law and Charles F. Higgins, applicant, appeared on behalf of the applicant. No one appeared on behalf of the objector.

The State Mining Board after being fully advised in the matter of the application of Charles Higgins for an integration order to establish a drilling unit to be described as follows:

East Half of the Northwest Quarter of the Northeast Quarter to authorize the drilling of a well to be known as the Myers-Clodfelter Comm. #1 well to be located:

330 feet South and 330 feet East of the Northwest corner of the Northeast Quarter of the Northwest Quarter of the Northeast Quarter of Section 10, Township 1 North, Range 14 West, Edwards County, Illinois,

finds:

1. That in the interest of conservation and in the protection of the correlative rights of those interested in the development of the pool, that the application of Charles Higgins should be granted.

2. That the parties involved should integrate their interests in the development of their lands.

IT IS THEREFORE ORDERED that a drilling unit described as the East Half of the Northwest Quarter of the Northeast Quarter of Section 10, Township 1 North, Range 14 West, Edwards County, Illinois, is established and Charles Higgins is authorized to drill a well on said drilling unit to be known as the Myers-Clodfelter Comm. #1 well and to be located 330 feet South and 330 feet East of the Northwest Corner of the Northeast Quarter of the Northwest

Quarter of the Northeast Quarter of Section 10, Township 1 North, Range 14 West, Edwards County, Illinois, and that the parties involved shall integrate their interests and develop their lands as the aforesaid drilling unit.

If prior to commencement of drilling, the objector and operator agree to terms of participation in the well, these terms may be substituted for this forced integration order. If the objector elects to participate in the well he must enter into an agreement with the operator, and this agreement must be filed with the Mining Board prior to commencement of drilling of the well. Failure to reach an agreement will necessitate the participation to be on the following basis.

IT IS FURTHER ORDERED THAT Charles Higgins shall drill the said well and that Marshall Lippert shall participate in the drilling unit described above to the extent of 50% of the 7/8ths working interest; and Mary Ermajene Pixley shall participate in the drilling unit to the extent of .0208333 of the 1/8th royalty interest; and Virginia Clodfelter Goldman shall participate in the drilling unit to the extent of .0520834 of the 1/8th royalty interest; and Gary Clodfelter shall participate in the drilling unit to the extent of .0520833 of the 1/8th royalty interest. However, if the royalty interest holders as reflected in the records of the hearing have not proved to be royalty interest holders as the result of a title opinion by the purchaser of the oil, then the royalty interest shall be paid to the proven title royalty interest owner. The participation factor shall be in accordance with Section 22.2 (3) of "An Act in Relation to Oil, Gas, Coal and Other Surface and Underground Resources and Rules and Regulations", being a part of Chapter 96½ of the Illinois Revised Statutes. The participation factor is determined to be:

1. 50% of the costs and expenses of all surface equipment and 50% of the costs of operating the well concerned with the first production to be borne by Marshall Lippert and 50% of the costs and expenses of all surface equipment and 50% of the costs of operating the well concerned with first production to be borne by Charles Higgins.
2. 75% of actual costs and expenses of drilling, testing and completing the well to be borne by Marshall Lippert and 25% of actual costs of drilling, testing and completing said well to be borne by Charles Higgins.

If you have any questions pertaining to this matter, please contact Mr. George R. Lane, Petroleum Engineer, whose telephone number is 217-782-7756.

DATED at Springfield, Sangamon County, Illinois, this 28th day of July, A.D., 1983.

BY ORDER OF THE STATE MINING BOARD:

George R. Lane
Mining Board Representative

**STATE OF ILLINOIS
DEPARTMENT OF MINES AND MINERALS
DIVISION OF OIL AND GAS
SPRINGFIELD, ILLINOIS**

In the matter of the application of Huge Oil, Inc. to form a 20-acre drilling unit and to authorize the drilling of the Roger Hubele Comm. #4 well located in Section 10, Township 5 South, Range 8 East, White County, Illinois.

HEARING ORDER
No. 286

The State Mining Board considered the above matter on July 28, 1983 in the Office of the Division of Oil & Gas, Room 704, Stratton Office Building, Springfield, Illinois. The objector has waived a hearing and requested that the State Mining Board issue an order in accordance with the provisions of Section 22.2 (a) of "An Act in Relation to Oil, Gas, Coal and Other Surface and Underground Resources and Rules and Regulations".

The objector having waived the hearing, the State Mining Board, after consideration of the application and supporting evidence in the matter, entered an integration order to establish a 20-acre drilling unit lying in the Southwest quarter of the Southeast quarter to authorize the drilling of a well to be known as the Roger Hubele Comm. #4 well located:

330 feet North and 330 feet East of the Southwest corner of the Southwest Quarter of the Southeast Quarter of Section 10, Township 5 South, Range 8 East, White County, Illinois,

finds:

1. That in the interest of conservation and in the protection of the correlative rights of those interested in the development of the pool, that the application of Huge Oil, Inc. should be granted.

2. That the parties involved should integrate their interest in their development of their lands.

IT IS THEREFORE ORDERED that a drilling unit consisting of 20 acres lying in the South Half of the Southwest Quarter of the Southeast Quarter of Section 10, Township 5 South, Range 8 East, White County, Illinois, is established and that Huge Oil, Inc. is authorized to drill a well on said drilling unit to be known as the Roger Hubele Comm. #4 and to be located 330 feet North and 330

feet East of the Southwest corner of the Southwest Quarter of the Southeast Quarter of Section 10, Township 5 South, Range 8 East, White County, Illinois, and that the parties involved shall integrate their interests and develop their lands as the aforesaid drilling unit.

IT IS FURTHER ORDERED that Huge Oil Company shall drill the said well and that Donahue Oil Company shall participate in the drilling unit described above to the extent of 4.687% of the 7/8ths working interest. The participation factor shall be in accordance with Section 22.2 (d) of "An Act in Relation to Oil, Gas, Coal and Other Surface and Underground Resources and Rules and Regulations", being a part of Chapter 96½ of the Illinois Revised Statutes. The participation factor is determined to be:

1. 4.687% of the costs and expenses of all surface equipment and 4.687% of the costs and operating the well concerned with the first production to be borne by Donahue Oil Company and 95.313% of the costs and expenses of all surface equipment and 95.313% of the costs of operating the well concerned with the first production to be borne by Huge Oil, Inc.
2. 7.0305% of the actual costs and expenses of drilling, testing and completing the well to be borne by Donahue Oil Company and 92.9695% of actual costs of drilling, testing and completing said well to be borne by Huge Oil, Inc.

If you have any questions pertaining to this matter, please contact Mr. George R. Lane, Petroleum Engineer, whose telephone number is 217-782-7756.

DATED at Springfield, Sangamon County, Illinois, this 29th day of July, A.D., 1983.

BY ORDER OF THE STATE MINING BOARD:

George R. Lane
Mining Board Representative

**BEFORE THE MINING BOARD OF THE
DEPARTMENT OF MINES AND MINERALS
DIVISION OF OIL AND GAS
OF THE STATE OF ILLINOIS**

In the matter of the unitized management, operation and further development, pursuant to the rules and regulations of the Illinois Department of Mines and Minerals, Division of Oil and Gas, of the following described tracts of land, from the surface, down to and including fifty (50) feet below the base of the McCloskey Limestone Formation, (being the stratigraphic equivalent interval of which is found between the depths of 3,060 feet and 3,080 feet as shown on the electric log of the Cochrane No. 1 Well in the SW/4 SE/4 NE/4, Section 11, Township 4 South, Range 3 East) underlying the Unit area for the Spring Garden Unit in the NW/4, N/2 SW/4, Section 12; and NE/4, N/2 SE/4, Section 11; all in Township 4 South, Range 3 East, Jefferson County, Illinois.

HEARING ORDER
No. 287

This Cause came on for hearing before George R. Lane, Mining Board Representative and Hearing Officer for the Department of Mines and Minerals, Division of Oil and Gas, of the State of Illinois, at 9:00 A.M. on June 7, 1983, Stratton Office Building, Springfield, Illinois, for the purpose of hearing, taking testimony, and reporting findings and recommendations to the Board.

D. Stanley Tacker, Attorney, and Mark S. Winters, Landman, appeared for the Petitioner, MAPCO Production Company, d/b/a MAPCO Oil and Gas Company. George R. Lane, Mining Board Representative and Hearing Officer, appeared for the Illinois Department of Mines and Minerals, Division of Oil and Gas. Charles Palmer and Bill McCrary appeared as witnesses for the Petitioner.

The Hearing Officer heard the Cause, and has proceeded to prepare and file his report herein, which report has been considered and the Mining Board of the Department of Mines and Minerals, Division of Oil and Gas finds as follows:

FINDINGS

1. That this is the Petition of MAPCO Production Company, d/b/a MAPCO Oil and Gas Company, for an Order for the unitized man-

agement, operation and further development, pursuant to the law of the State of Illinois and the rules and regulations of the Illinois Department of Mines and Minerals, Division of Oil and Gas, of the following described tracts of land, from the surface down to and including fifty (50) feet below the base of the McCloskey Limestone Formation (being the stratigraphic equivalent interval of which is found between the depths of 3,060 feet and 3,080 feet as shown on the electric log of the Cochrane No. 1 Well in the SW/4 SE/4 NE/4, Section 11, Township 4 South, Range 3 East) underlying the Unit area for the Spring Garden Unit in the NW/4, N/2 SW/4, Section 12; and the NE/4, N/2 SE/4, Section 11, all in Township 4 South, Range 3 East, Jefferson County, Illinois.

2. That the Mining Board of the Department of Mines and Minerals has jurisdiction over the subject matter herein; that Notice has been given in all respects as required by the law of the State and by the rules and regulations of the Department of Mines and Minerals, Division of Oil and Gas; that Petitioner is an owner of an interest in the area covered by the Petition.

3. That the unitized management and operation is economically feasible and reasonably necessary to increase the ultimate recovery of oil and gas, to prevent waste and to protect correlative rights.

4. That the value of the estimated ultimate additional recovery of oil and gas will exceed the estimated additional costs, if any, incident to conducting the Unit operation.

5. That the areal extent of the pool or pools, or parts thereof, have been reasonably defined and determined by drilling operations, and the unitization and operation of such will have no substantially adverse effect upon the remainder of the pool or pools, or parts thereof.

6. That the allocation of unit production to each separately owned tract is fair, reasonable, and equitable to all owners of oil and gas rights in the Unit area.

7. That the determination and allocation of Unit expense is fair, reasonable and equitable to the working interest owners.

8. That the compensation or adjustment for wells, equipment and other properties of the working interest owners is fair, reasonable and equitable.

9. That the Plan of Unitization, with respect to such Unit, the Unit area, and the common source of supply as presented for approval conform to and comply with, in all respects, the requirements of the laws of the State of Illinois and the rules and regulations of the Illinois Department of Mines and Minerals, Division of Oil and Gas; that the Plan has been accepted, signed or ratified, by

more than 75% of the lessees of record within the unit area; and that said Plan has been accepted, signed or ratified by more than 75% of royalty interest owners of record within the unit area.

10. That the Petition herein is supported by substantial evidence and the Plan complies with the applicable statutes and regulations; therefore, in order to secure the greatest ultimate recovery of oil from the sources of supply and area covered by said Plan, to prevent waste and to protect correlative rights, this Petition should be granted.

ORDER

IT IS THEREFORE, ORDERED by the Mining Board of the Department of Mines and Minerals, Division of Oil and Gas:

1. That the Petition filed in this Cause be, and the same is hereby granted.

2. That the creation of the Unit is hereby approved all in accordance with, upon and subject to the terms, provisions and conditions of the Plan, and applicable State law, including the rules and regulations of the Department of Mines and Minerals, Division of Oil and Gas.

3. That the Plan which is attached to the Petition in this Cause is made a part of this Order by reference and is hereby approved, and such Plan shall constitute the only Plan in and for the Unit area and the common sources of supply described in paragraph 1 of the Findings, above, all to the same extent and with the same force and effect as if copied herein in its entirety.

4. That each of the separately owned tracts within the Unit area are subject to the terms and provisions of the Plan; that participation in the Unit production from the Unit and in the other benefits and burdens of the Unit shall be in accordance with the terms and provisions of the Plan; that the area covered by this Plan and this Order is as follows:

From the surface down to and including, fifty (50) feet below the base of the McCloskey Limestone Formation, (being the stratigraphic equivalent interval of which is found between the depths of 3,060 feet and 3,080 feet as shown on the electric log of the Cochrane No. 1 Well located in the SW/4 SE/4 NE/4 of Section 11, Township 4 South, Range 3 East), underlying the Unit area for the Spring Garden Unit in the NW/4, N/2 SW/4, Section 12; and the NE/4, N/2 SE/4, Section 11, all in Township 4 South, Range 3 East, Jefferson County, Illinois.

That a plat is attached hereto as Exhibit A showing the Unit area.

5. That the Mining Board retains jurisdiction over the Unit for the purpose of amending, modifying and interpreting the terms of this Order and the Plan.

DONE AND PERFORMED this 2nd day of August, 1983.

BY ORDER OF THE STATE MINING BOARD:

George R. Lane
Mining Board Representative

**STATE OF ILLINOIS
DEPARTMENT OF MINES AND MINERALS
DIVISION OF OIL AND GAS
SPRINGFIELD, ILLINOIS**

In the matter of the application of Terry R. White Oil Company, Inc. to convert to an enhanced recovery disposal well the Walters #7 well located in Section 35, Township 8 South, Range 6 East, Saline County, Illinois. } **HEARING ORDER
No. 288**

This cause came on for hearing before the State Mining Board in the Stratton Office Building, Springfield, Illinois, at 9:45 A.M., September 6, 1983. Present for the hearing for the State Mining Board was Mr. George R. Lane, Hearing Officer. Also present were Terry R. White, applicant, and Douglas L. Shook, Attorney at Law, on behalf of Terry R. White Oil Company. No one appeared on behalf of the objector.

The State Mining Board having considered the oral testimony submitted in said cause by witness duly sworn in and being fully advised in the matter finds:

That the application filed herein in accordance with Rule II-A of "An Act in Relation to Oil, Gas, Coal and Other Surface and Underground Resources and Rules and Regulations" for a permit to convert for salt water injection purposes in the Cypress formation the following described well:

Walters #7 well located 357 feet South and 341 feet East of the Northwest corner of the Northeast quarter of the Southeast quarter of Section 35, Township 8 South, Range 6 East, Saline County, Illinois,
shall be granted.

IT IS THEREFORE ORDERED that the application of Terry R. White Oil Company, Inc. to convert the above described well to an enhanced recovery disposal well is approved and a permit is granted.

If you have any questions pertaining to this matter, please contact Mr. George R. Lane, Petroleum Engineer, whose telephone number is 217-782-7756.

DATED at Springfield, Sangamon County, Illinois, this 29th day of September, A.D., 1983.

George R. Lane
Mining Board Representative

**STATE OF ILLINOIS
DEPARTMENT OF MINES AND MINERALS
DIVISION OF OIL AND GAS
SPRINGFIELD, ILLINOIS**

In the matter of the application of Booth Resources, Inc., to form a twenty acre drilling unit and to authorize the drilling of the D. Bradley #1 well located in Section 24, Township 1 North, Range 7 East, Wayne County, Illinois.

HEARING ORDER
No. 289

This cause came on for hearing before the State Mining Board in the Stratton Office Building, Illinois, at 9:30 A.M. (C.S.T.) on the 3rd day of October, 1983. Present for the hearing for the State Mining Board was Mr. George R. Lane, Hearing Officer. Also present was Mr. A. W. Murphy on behalf of the Applicant.

The State Mining Board having considered the oral testimony of witnesses duly sworn, and being fully advised in the matter of the application of Booth Resources, Inc., for an Integration Order to establish a twenty acre drilling unit and described as follows:

West One-half of the Southeast Quarter of the Southwest Quarter to authorize the drilling of a well to be known as the D. Bradley #1 Well to be located:

330 feet North and 330 feet East of the Southwest Corner of the Southwest Quarter of the Southeast Quarter of the Southwest Quarter of Section 24, Township 1 North, Range 7 East, Wayne County, Illinois,

finds:

1. That in the interest of conservation and in the protection of the correlative rights of those interested in the development of the pool, that the Application of Booth Resources, Inc., should be granted.
2. That the parties involved should integrate their interests in the development of their lands.

IT IS, THEREFORE ORDERED that a drilling unit consisting of twenty acres and described as the West One-half (W 1/2) of the Southeast Quarter (SE 1/4) of the Southwest Quarter (SW 1/4) of Section 24, in Township 1 North, Range 7 East, Wayne County, Illinois, is established, and Booth Resources, Inc., is authorized to drill a well on said drilling unit to be known as the D. Bradley #1 well, and to be located 330 feet North and 330 feet East of the Southwest Corner of the Southwest Quarter (SW 1/4) of the Southeast Quarter (SE 1/4) of the Southwest Quarter (SW 1/4) of Section

24, Township 1 North, Range 7 East, Wayne County, Illinois, and that the parties involved shall integrate their interests and develop their lands as the aforesaid drilling unit.

If, prior to commencement on drilling, the Respondents, Charles Stanford, Jr., Leona Vollintine, Virginia Hartline, Susanne Campbell Morton, Frank P. Campbell, Jr., and Rex E. Fitch, and Operator agree to terms of participation in the well, these terms may be substituted for this forced Integration Order. If the Respondents elect to participate in the well, they must enter into an Agreement with the Operator and this Agreement must be filed with the Mining Board. Failure to reach an agreement will necessitate the participation to be on the following basis.

IT IS FURTHER ORDERED that Booth Resources, Inc., shall drill the said well and that Charles Stanford, Jr., Leona Vollintine and Virginia Hartline shall each participate in the drilling unit established above to the extent of .39063% of the 7/8ths working interest and .39063% of the 1/8th royalty interest in the drilling unit.

IT IS FURTHER ORDERED that the Respondents, Susan Campbell Morton and Frank P. Campbell, Jr., shall each participate in the drilling unit described above to the extent of .19531% of the 7/8ths working interest and to the extent of .19531% of the 1/8th royalty interest in the drilling unit. That the Respondent, Rex E. Fitch participate in the drilling unit described above to the extent of .66550% of the 7/8ths working interest and to the extent of .66550% of the 1/8th royalty interest in the drilling unit.

The participation factor shall be in accordance with Section 22.2 (d) of "An Act in Relation to Oil, Gas, Coal and Other Surface and Underground Resources and Rules and Regulations," being a part of Chapter 96½ of the *Illinois Revised Statutes*. The participation factor is determined to be:

1. .39063% of the costs and expenses of all surface equipment and .39063% of the cost of operating the well concerned with the first production to be borne by the Respondents, Charles Stanford, Jr., Leona Vollintine and Virginia Hartline, each; .19531% of the costs and expenses of all surface equipment and .19531% of the cost of operating the well concerned with the first production to be borne by the Respondents, Susan Campbell Morton and Frank P. Campbell, Jr., each; .66550% of the costs and expenses of all surface equipment and .66550% of the cost of operating the well concerned with the first production to be borne by the Respondent

Rex E. Fitch; 97.77199% of the costs and expenses of all surface equipment and 97.77199% of the cost of operating the well concerned with the first production be borne by Booth Resources, Inc.

2. .58549% of the actual costs and expenses of drilling, testing, and completing the well to be borne by the Respondents, Charles Stanford, Jr., Leona Vollintine and Virginia Hartline, each; .29297% of actual costs and expenses of drilling, testing and completing the well to be borne by the Respondents, Susan Campbell Morton and Frank P. Campbell, Jr., each, and .99825% of actual costs and expenses of drilling, testing and completing the well to be borne by the Respondent, Rex E. Fitch; and 96.65934% of actual cost of drilling, testing and completing said well to be borne by Booth Resources, Inc.

IT IS FURTHER ORDERED that Booth Resources, Inc., be, and it is hereby, entitled to the shares of production, if any, from the drilling unit described as the D. Bradley #1 well attributable to the interest of the Respondents, Charles Stanford, Jr., Leona Vollintine, Virginia Hartline, Susan Campbell Morton, Frank P. Campbell, Jr., and Rex E. Fitch, until the market value of said Respondents' shares of production equal the above described respective shares of cost of surface equipment, operating expenses and expenses of drilling, testing and completing the D. Bradley #1 well that are to be borne by said Respondents, respectively.

If you have any questions pertaining to this matter, please contact Mr. George R. Lane, Petroleum Engineering, whose telephone number is 217-782-7756.

DATED at Springfield, Sangamon County, Illinois, this 4th day of October, A.D., 1983.

BY ORDER OF THE STATE MINING BOARD:

George R. Lane
Mining Board Representative

**STATE OF ILLINOIS
DEPARTMENT OF MINES AND MINERALS
DIVISION OF OIL AND GAS
SPRINGFIELD, ILLINOIS**

In the matter of the Petition of Ashland Exploration, Inc. for the formation of the Flora North Unit in Clay County, Illinois pursuant to the rules and regulations of the Illinois Department of Mines and Minerals, Division of Oil and Gas. HEARING ORDER
No. 290

This cause came on for hearing before the State Mining Board in the Stratton Office Building, Springfield, Illinois, at 9:30 A.M. (D.S.T.) on August 16, 1983. Present for the hearing for the State Mining Board was Mr. George R. Lane, Hearing Officer. Also present were Terry R. Black with the Law Firm of Campbell, Furnall, Moore and Jacobsen, on behalf of Ashland Exploration, Inc.; Mark Pierce, Regional Engineer on behalf of Ashland Exploration, Inc.; and Dale Winter, Manager of Lester Winter Estate. Witnesses for the Petitioner were Larry Berrong, Landman; John Avila, Exploration Advisor; and Ralph McBee, Staff Petroleum Engineer — all on behalf of Ashland Exploration, Inc. All interested parties were afforded an opportunity to be heard in connection therewith.

The Hearing Officer heard the cause and considered the oral testimony of witnesses duly sworn and being fully advised in the matter has found:

FINDINGS

1. That the unitized management and operation is economically feasible and reasonably necessary to increase the ultimate recovery of oil and gas, to prevent waste, and to protect correlative rights; and

2. That the value of the estimated ultimate additional recovery of oil and gas will exceed the estimated additional cost incident to conducting the unit operation; and

3. That the areal extent of the pool or pools, or parts thereof, has been reasonably defined and determined by drilling operations, and the unitization and operation of such will have no substantially adverse effect upon the remainder of the pool or pools, or parts thereof; and

4. That the allocation of unit production to each separately owned tract is fair, reasonable and equitable to all owners of oil and gas rights in the unit area; and

5. That the determination and allocation of unit expense is fair, reasonable and equitable; and

6. That the compensation or adjustment for wells, equipment and other properties of the working interest owners is fair, reasonable and equitable; and

7. That the plan for unitization has been approved in writing by those persons who under this Order will be required to pay more than seventy-five percent (75%) of the unit expense and also by the persons owning more than seventy-five percent (75%) of the unit production, or proceeds thereof, that will be credited to interests which are free of unit expense, including, but not limited to royalties, overriding royalties, carried interest, net profit interests, and production payments within the North Flora Unit.

ORDER

IT IS THEREFORE ORDERED by the Mining Board of the Department of Mines and Minerals, Division of Oil and Gas:

1. That the Petition of Ashland Exploration, Inc. as Unit Operator, be granted and that the North Flora Unit is hereby created in accordance with and subject to the terms, provisions and conditions of the Petition for Unitization as filed in these proceedings.

2. That the North Flora Unit shall be the area outlined on the Map, Exhibit A, attached to the Petition for Unitization, and that the Petition for Unitization is made a part of this Order by reference with the same force and effect as if set out herein in its entirety.

3. That each of the tracts within the Unit Area, as shown on Exhibit A, attached to the Petition for Unitization, subject to the terms and provisions of the Petition for Unitization shall participate in the unit production and in other benefits and burdens of the unit in accordance with the specified tract participation.

4. That petitioner is authorized to proceed with the enhanced recovery operations set forth in its petition and as presented to the Board.

5. That the North Flora Unit is hereby made effective and unit operations under these agreements can be commenced.

The Department of Mines and Minerals retains continuing jurisdiction over the North Flora Unit in order that it may exercise such administrative control as is consistent with its powers and duties as established by the statutes of the State of Illinois.

(2) That this Order shall cover the following described area:

Sections 35 and 36 of Township 4 South, Range 3 East, Sections 31 of Township 4 South, Range 4 East, Jefferson County, Illinois; and

Section 1 *with the exception of 40 acres lying in the Northwest Quarter of the Northeast Quarter*, Section 2, the Southeast Quarter of Section 3, Sections 10, 11, 12, 13, 14, 15 and 24 of Township 5 South, Range 3 East, Sections 6, 7, 18 and 19 of Township 5 South, Range 4 East, Franklin County, Illinois.

to be changed to read as follows:

(2) That this Order shall cover the following described area:

Sections 35 and 36 of Township 4 South, Range 3 East, Sections 31 of Township 4 South, Range 4 East, Jefferson County, Illinois; and

Section 1 *with the exception of 40 acres lying in the Northeast Quarter of the Northeast Quarter*, Section 2, the Southeast Quarter of Section 3, Sections 10, 11, 12, 13, 14, 15 and 24 of Township 5 South, Range 3 East, Sections 6, 7, 18 and 19 of Township 5 South, Range 4 East, Franklin County, Illinois.

BY ORDER OF THE STATE MINING BOARD:

George R. Lane
Mining Board Representative

**STATE OF ILLINOIS
DEPARTMENT OF MINES AND MINERALS
DIVISION OF OIL AND GAS
SPRINGFIELD, ILLINOIS**

In the Matter of the Petition of C. E. Brehm d/b/a C. E. Brehm Drilling & Producing, filed pursuant to Spacing Rule IV(1) (A) (2) and Illinois Revised Statutes, Chapter 104, Section 82A, for a Field-wide 40-Acre Spacing Order in the St. Louis, Salem and Warsaw Formations for the Ewing Field located in portions of Jefferson County and Franklin County, Illinois.

HEARING ORDER
No. 231

REPORT OF THE MINING BOARD

On January 13, 1977, C. E. Brehm d/b/a C. E. Brehm Drilling & Producing, an Illinois corporation, authorized to do business in the State of Illinois, filed a Petition with the Department of Mines and Minerals for a field-wide 40-acre spacing Order in the St. Louis Formation, the Salem Formation, and the Warsaw Formation in portions of Jefferson County and Franklin County, Illinois.

After due notice as provided in Illinois Revised Statutes, Chapter 104, Section 82a and by Rules of Procedure in Public Hearings for the Department of Mines and Minerals, a public hearing was held on said Petition on January 31, 1977, in the City of Springfield, Illinois. At such hearing, before the Department of Mines and Minerals, the Petitioner submitted proof, exhibits, evidence and testimony in support of said Petition. Other interested parties were afforded an opportunity to be heard in connection therewith.

FINDINGS OF FACT

The Department of Mines and Minerals finds:

- (1) That C. E. Brehm d/b/a C. E. Brehm Drilling & Producing is the owner and operator of a substantial number of oil and gas leases in the Ewing Field, hereinafter delineated, and is thereby an interested party in the establishment of field-wide spacing for this field; and
- (2) That as of January 13, 1977 C. E. Brehm d/b/a C. E. Brehm Drilling & Producing had drilled and set casing in five wells drilled to these reservoirs, and three wells are now producing, one from the St. Louis and Upper Warsaw limestone and two from the lower Warsaw limestone; the other two are in the process of completion; and

- (3) That the Clayton Community #1 well located in the Northwest Quarter of the Southeast Quarter of the Northeast Quarter of Section 2, Township 5 South, Range 3 East, Franklin County, Illinois, the St. Louis Formation is from 3138 to 3352, the Salem Formation from 3352 to 3714, and the Warsaw Formation from 3714 to 4245 feet from the surface; and
- (4) That in the absence of a specific order of the Mining Board, the General Spacing Rule IV(1) (A) (b) is applicable which, in essence, provides for 20-acre drilling units for the production of oil or gas from a limestone formation in a pool, the top of which lies less than 4,000 feet beneath the surface; and
- (5) That C. E. Brehm d/b/a C. E. Brehm Drilling & Producing has drilled a number of wells and, based upon production and tests therefrom, and based upon other geological data, has determined that the Ewing Field is delineated and located within the following area:

Sections 35 and 36 of Township 4 South, Range 3 East, Section 31 of Township 4 South, Range 4 East, Jefferson County, Illinois; and

Sections 1, 2, the Southeast Quarter of Section 3, Sections 10, 11, 12, 13, 14, 15 and 24 of Township 5 South, Range 3 East, Sections 6, 7, 18 and 19 of Township 5 South, Range 4 East, Franklin County, Illinois,

hereinafter called the "Ewing Field"; and

- (6) That C. E. Brehm d/b/a C. E. Brehm Drilling & Producing has, by drilling oil and gas wells and conducting tests thereon, determined that one well can efficiently and economically drain a 40-acre drilling unit.

CONCLUSIONS OF LAW

That Illinois Revised Statutes, Chapter 104, Section 82a, applies to the Petition of C. E. Brehm d/b/a C. E. Brehm Drilling & Producing and these proceedings before the Department of Mines and Minerals.

That the Department of Mines and Minerals has jurisdiction of the subject matter and the persons interested therein; that due and proper notices of the Petition and of the time, place and purpose of the hearing were given as required by law; that all interested parties were afforded an opportunity to be heard therein; and

That for the prevention of waste, to protect and enforce the correlative rights of the owners in the pool, and to prevent the drilling of unnecessary wells, this Petition should be granted.

ORDER OF THE DEPARTMENT OF MINES AND MINERALS

It is, therefore, ordered by the Department of Mines and Minerals as follows:

(1) That the Petition of C. E. Brehm d/b/a C. E. Brehm Drilling and Producing for an order establishing field-wide drilling units of forty (40) acres of surface area, lying with a Quarter-Quarter Section of land (as established by the United States Public Land Survey made pursuant to the provisions of an Act of Congress) for wells drilled or deepened for the production of oil and gas from the St. Louis Formation, which is found at a depth from 3138 feet to 3352 feet, the Salem Formation, which is found at a depth from 3352 feet to 3714 feet, and the Warsaw Formation which is found at a depth from 3417 feet to 4245 feet from the surface, as shown on Dual Laterolog of C. E. Brehm d/b/a C. E. Brehm Drilling & Producing's Clayton Community #1 well located 990 feet North and 330 feet East of the Southwest corner of the Southeast Quarter of the Northeast Quarter of Section 2, Township 5 South, Range 3 East, Franklin County, Illinois, is hereby granted.

(2) That this Order shall cover the following described area:

Sections 35 and 36 of Township 4 South, Range 3 East, Section 31 of Township 4 South, Range 4 East, Jefferson County, Illinois; and

Section 1 with the exception of 40 acres lying in the Northwest Quarter of the Northeast Quarter, Section 2, the Southeast Quarter of Section 3, Sections 10, 11, 12, 13, 14, 15 and 24 of Township 5 South, Range 3 East, Sections 6, 7, 18 and 19 of Township 5 South, Range 4 East, Franklin County, Illinois.

(3) That no more than one well may be drilled on each drilling unit established by this Order.

(4) That the well drilled for each unit be located not less than three hundred thirty (330) feet from the nearest external boundary lines of the drilling unit nor less than nine hundred (900) feet from the nearest location of a producing well or well being drilled or for which a permit has previously been issued for the drilling of a well to the same individual pool.

(5) That all royalty interests within each separate drilling unit be integrated and that each Royalty Owner within the unit participate in the royalty from the well drilled thereon in the proportion to the interest owned by such Royalty Owner bears to the total of such interest in the entire unit.

(6) That whenever the topographical conditions of the drilling unit render it impractical, without unreasonable expense, to drill a

well at a location in conformity with the spacing rules, the Mining Board may alter the location after investigation and verification of the topographical conditions.

(7) That in the case of irregular Sections, containing more or less than 640 acres, the Mining Board shall allow exceptions or create units in order to absorb the entire acreage in such Sections into drilling units.

DATED at Springfield, Sangamon County, Illinois, this 8th day of February, 1977, A.D.

BY ORDER OF THE STATE MINING BOARD:

George R. Lane
Mining Board Representative

**STATE OF ILLINOIS
DEPARTMENT OF MINES AND MINERALS
DIVISION OF OIL AND GAS
SPRINGFIELD, ILLINOIS**

In the matter of the application of Richard J. & Carolyn M. Hurst to drill the George Comm. #2 well in Sec. 22 4S 1W, Perry County, Illinois. } **HEARING ORDER
No. 291**

This cause came on for hearing before the State Mining Board in the Stratton Office Building, Springfield, Illinois, at 9:00 A.M., Monday, July 11, 1983.

Present for the hearing for the State Mining Board was Mr. George R. Lane, Petroleum Engineer. Appearances were made by Steve Schnake and J. Halbert Woods, Attorney at Law, on behalf of Zeiglar Coal Company. Also present were Carolyn Hurst and Darrel George on behalf of the applicant.

The State Mining Board having heard the oral testimony of witnesses sworn and examined, having examined the exhibits introduced in said cause and having been fully advised in the matter finds:

That the application filed by Richard J. & Carolyn M. Hurst to drill the following described well to be known as:

George Comm. #2 well to be located 330 feet South and 330 feet West of the Northeast corner of the Southwest quarter of Section 22, Township 4 South, Range 1 West, Perry County, Illinois,
should be granted.

IT IS THEREFORE ORDERED that the application filed by Richard J. & Carolyn M. Hurst to drill the following described well is approved and permit is granted.

George Comm. #2 well to be located 330 feet South and 330 feet West of the Northeast corner of the Southwest quarter of Section 22, Township 4 South, Range 1 West, Perry County, Illinois.

If you have any questions pertaining to this matter, please contact Mr. George R. Lane, Petroleum Engineer, whose telephone number is 217-782-7756.

DATED at Springfield, Sangamon County, Illinois, this 4th day of November, 1983.

BY ORDER OF THE STATE MINING BOARD:

George R. Lane
Mining Board Representative

**STATE OF ILLINOIS
DEPARTMENT OF MINES AND MINERALS
DIVISION OF OIL AND GAS
SPRINGFIELD, ILLINOIS**

| | | |
|---|---|--------------------------|
| In the matter of the application of Ronnie Joe Graham d/b/a R. J. Graham Oil Company to form drilling units to authorize the drilling of the Hunley et al Community #1 and #2 wells in Section 20, Township 3 North, Range 8 West, Clay County, Illinois. | } | HEARING ORDER No. 292 |
|---|---|--------------------------|

This cause came on for hearing before the State Mining Board in the Stratton Office Building, Springfield, Illinois, at 9:00 A.M. on Tuesday, October 25, 1983. Present for the hearing for the State Mining Board was Mr. George R. Lane, Hearing Officer. Also present were Dixie Gordon, Russell Gordon, Paul Hunley, Lorena Hunley; objectors, and Jerry Doyle Miller, Attorney at Law on behalf of Mr. & Mrs. Gordon and Mr. & Mrs. Hunley. Also present were Ron Graham and Marsha Graham and Peggy L. Anderson.

The State Mining Board having considered the oral testimony of witnesses duly sworn and being fully advised in the matter of the applications of Ronnie Joe Graham d/b/a R. J. Graham Oil Company to form drilling units consisting of 10 acres each to drill the following described wells to be known as:

Hunley et al Comm. #1 to be located 330 feet South and 330 feet West of the Northeast corner of the Southeast quarter of Section 20, Township 3 North, Range 8 East, Clay County, Illinois; and

Hunley et al Comm. #2 to be located 330 feet South and 330 feet East of the Northwest corner of the Northeast quarter of the Southeast quarter of Section 20, Township 3 North, Range 8 East, Clay County, Illinois,

finds:

1. That in the interest of conservation and in the protection of the correlative rights of those interested in the development of the pool, that the applications of Ronnie Joe Graham d/b/a R. J. Graham Oil Company should be granted.

2. That the parties involved should integrate their interest in their development of their lands.

IT IS THEREFORE ORDERED that drilling units are established and Ronnie Joe Graham d/b/a R. J. Graham Oil Company is authorized to drill the following described wells:

Hunley et al Comm. #1 to be located 330 feet South and 330 feet West of the Northeast corner of the Southeast quarter of Section 20, Township 3 North, Range 8 East, Clay County, Illinois; and

Hunley et al Comm. #2 to be located 330 feet South and 330 feet East of the Northwest corner of the Northeast quarter of the Southeast quarter of Section 20, Township 3 North, Range 8 East, Clay County, Illinois,

and that the parties involved shall integrate their interests and develop their lands as the aforesaid drilling unit.

If prior to commencement of drilling, the objector and operator agree to terms of participation in the wells, these terms may be substituted for this forced integration order. If the objector elects to participate in the wells he must enter into an agreement with the operator, and this agreement must be filed with the Mining Board prior to commencement of drilling of the wells. Failure to reach an agreement will necessitate the participation to be on the following basis.

IT IS FURTHER ORDERED that Ronnie Joe Graham d/b/a R. J. Graham Oil Company shall drill the said wells and that Paul and Lorena Hunley shall participate in the drilling unit described above to the extent of 18.75% of the 7/8ths working interest and to the extent of 18.75% of the 1/8ths royalty interest in the drilling unit; Russell and Dixie Gordon shall participate in the drilling unit described above to the extent of 6.25% of the 7/8ths working interest and to the extent of 6.25% of the 1/8ths royalty interest. The participation factor shall be in accordance with Section 22.2 (d) of "An Act in Relation to Oil, Gas, Coal and Other Surface and Underground Resources and Rules and Regulations", being a part of Chapter 96½ of the Illinois Revised Statutes. The participation factor is determined to be:

1. 18.75% of the costs and expenses of all surface equipment and 18.75% of the costs of operating the wells concerned with the first production to be borne by Paul and Lorena Hunley; and 6.25% of the costs and expenses of all surface equipment and 6.25% of the costs of operating the wells concerned with the first production to be borne by Russell and Dixie Gordon; and 75% of the costs and expenses of all surface equipment and 75% of the costs of operating the wells concerned with first production to be borne by Ronnie Joe Graham d/b/a R. J. Graham Oil Company.

2. 28.125% of actual costs and expenses of drilling, testing and completing the wells to be borne by Paul and Lorena Hunley; and 9.375% of actual costs and expenses of drilling, testing and completing the wells to be borne by Russell and Dixie Gordon; and 62.5% of actual costs of drilling, testing and completing said wells to be borne by Ronnie Joe Graham d/b/a R. J. Graham Oil Company.

IT IS FURTHER ORDERED that Ronnie Joe Graham d/b/a R. J. Graham Oil Company shall obtain certified consent from the Village of Clay City, Illinois, in accordance with Section 13 of the rules and regulations of this office.

If you have any questions pertaining to this matter, please contact Mr. George R. Lane, Petroleum Engineer, whose telephone number is 217-782-7756.

DATED at Springfield, Sangamon County, Illinois, this 22nd day of November, A.D., 1983.

DIVISION OF OIL AND GAS
SPRINGFIELD, ILLINOIS

| | | |
|--|---|--------------------------|
| In the matter of applications for permit to use vacuum and revocation of existing vacuum permits in the Buckhorn East Field. | } | HEARING ORDER No. 293 |
|--|---|--------------------------|

This cause came on for hearing before the State Mining Board in the Stratton Office Building, Springfield, Illinois, at 9:00 A.M., Monday, November 7, 1983. Present for the hearing for the State Mining Board was Mr. George R. Lane, Hearing Officer. Also present were Charles B. Wiley, Vice President of Operations for Henry Energy Corporation; Burton H. Mars, Consultant with Operations and Phillip M. Caserotti, Consulting Petroleum Geologist, both on behalf of Michael Taines Enterprises; Larry R. Williams, on behalf of R & R Enterprises; Skip Homeier, on behalf of Homco, Ltd.; Don Toppmeyer and Tom Smith, both on behalf of Calhoun Research & Development; Dale Hollomen, Manager of Operations, and Craig E. Young, Petroleum Engineer, and Morris S. Todd, Vice-President of Engineering, all on behalf of Texas American Oil Corporation; Steve Owen and William Grant and R. L. Johnson, all on behalf of Longhorn Resources; Ned Price on behalf of Midland Minerals Corporation; J. D. Salazar on behalf of Oak Brook Energy; and Anthony Markert.

The State Mining Board having considered the oral testimony of witnesses duly sworn and being fully advised in the matter of the applications for permit to use vacuum and revocation of existing vacuum permits in the Buckhorn East Field described as follows:

All of Township 1 South, Range 3 West;
All of Township 1 South, Range 4 West;
All of Township 2 South, Range 3 West;
All of Township 2 South, Range 4 West;
all in Brown County, Illinois,

finds:

Proponents of use of vacuum in the Buckhorn East Field failed to offer conclusive evidence in the form of an engineering feasibility study that would support the use of vacuum nor was there sufficient evidence submitted as to the potential use of other forms of secondary recovery such as waterflooding.

IT IS THEREFORE ORDERED that all applications for permits to use vacuum in the Buckhorn East Field are hereby denied and all

existing vacuum permits are hereby revoked. Vacuum pumps should be removed from all leases in the Buckhorn East Field on or before 9:00 A.M., December 2, 1983. Further consideration of use of water flood or vacuum pumps in this field will be subject to the operators coordinating an engineering feasibility study of the field and the results of the study with the consensus of agreement as to the future use of vacuum. Upon completion of this study and the filing of a petition, this hearing may be reopened for future consideration of the use of vacuum pumps in the Buckhorn East Field.

If you have any questions pertaining to this matter, please contact Mr. George R. Lane, Petroleum Engineer, whose telephone number is 217-782-7756.

BY ORDER OF THE STATE MINING BOARD:

George R. Lane
Mining Board Representative

STATE OF ILLINOIS
DEPARTMENT OF MINES AND MINERALS
DIVISION OF OIL AND GAS
SPRINGFIELD, ILLINOIS

In the matter of the application of Amosoil, Inc., to form a 20 acre drilling unit and to authorize the drilling of the Mugrage Comm. #1 well in Section 21, Township 1 North, Range 7 East, Wayne County, Illinois. } HEARING ORDER
No. 294

This cause came on for hearing before the State Mining Board in the Stratton Office Building, Springfield, Illinois, at 9:30 A.M., Tuesday, November 29, 1983. Present for the hearing for the State Mining Board was Mr. George R. Lane, Hearing Officer. Also present was Mr. Nash New, Agent for Amosoil, Inc., the applicant. No one appeared on behalf of the objector.

The State Mining Board having considered the oral testimony of witness sworn in and being fully advised in the matter of the application of Amosoil, Inc. for an integration order to establish a 20 acre drilling unit described as follows:

North Half of the Southeast Quarter of the Southeast Quarter to authorize the drilling of a well to be known as the Mugrage Comm. #1 well to be located:

330 feet South and 380 feet West of the Northeast corner of the Southeast quarter of the Southeast quarter of Section 21, Township 1 North, Range 7 East, Wayne County, Illinois,

finds:

1. That in the interest of conservation and in the protection of the correlative rights of those interested in the development of the pool, that the application of Amosoil, Inc. should be granted.

2. That the parties involved should integrate their interest in their development of their lands.

IT IS THEREFORE ORDERED that a drilling unit consisting of 20 acres and described as the North Half of the Southeast Quarter of the Southeast Quarter of Section 21, Township 1 North, Range 7 East, Wayne County, Illinois, is established and Amosoil, Inc. is authorized to drill a well on said drilling unit to be known as the Mugrage Comm. #1 well and to be located 330 feet South and 380 feet West of the Northeast corner of the Southeast quarter of the Southeast Quarter of Section 21, Township 1 North, Range 7 East, Wayne County, Illinois, and that the parties involved shall inte-

grate their interests and develop their lands as the aforesaid drilling unit.

If prior to commencement of drilling, the objector and operator agree to terms of participation in the well, these terms may be substituted for this forced integration order. If the objector elects to participate in the well he must enter into an agreement with the operator, and this agreement must be filed with the Mining Board prior to commencement of drilling of the well. Failure to reach an agreement will necessitate the participation to be on the following basis.

IT IS FURTHER ORDERED that Amosoil, Inc. shall drill the said well and that Mary Logan Hodge shall participate in the drilling unit described above to the extent of 6.25% of the 7/8ths working interest and to the extent of 6.25% of the 1/8th royalty interest in the drilling unit. The participation factor shall be in accordance with Section 22.2 (d) of "An Act in Relation to Oil, Gas, Coal and Other Surface and Underground Resources and Rules and Regulations", being a part of Chapter 96½ of the Illinois Revised Statutes. The participation factor is determined to be:

1. 6.25% of the costs and expenses of all surface equipment and 6.25% of the costs of operating the well concerned with the first production to be borne by Mary Logan Hodge and 93.75% of the costs and expenses of all surface equipment and 93.75% of the costs of operating the well concerned with first production to be borne by Amosoil, Inc.
2. 9.375% of actual costs and expenses of drilling, testing and completing the well to be borne by Mary Logan Hodge and 90.625% of actual costs of drilling, testing and completing said well to be borne by Amosoil, Inc.

If you have any questions pertaining to this matter, please contact Mr. George R. Lane, Petroleum Engineer, whose telephone number is 217-782-7756.

|--|---|--------------------------|
| In the matter of the applications of Herman L. Loeb for water input wells in Sections 2 and 3, Township 2 North, Range 3 West, Clinton County, Illinois. | } | HEARING ORDER No. 295 |
|--|---|--------------------------|

This cause came on for hearing before the State Mining Board in the Stratton Office Building, Springfield, Illinois, at 1:30 P.M., Monday, November 7, 1983. Present for the hearing for the State Mining Board was Mr. George R. Lane, Hearing Officer. William P. Gavin, Attorney with the Law Firm of Gundlach, Lee, Eggmann, Boyle & Roessler, appeared on behalf of John F. Dunnill, Inc., Willene Dunnill, Victor Dettrich, Richard Burnham, John Cargill, W. Leroy Barnard, and Herman Dederer. Patrick J. Hitpas, Attorney with the Law Firm of Hitpas & Mehochko, appeared on behalf of Herman L. Loeb, applicant. Also present at the hearing were John Dunnill, William Dunnill, Gordon Carpenter and Paul Kahrhoff who presented testimony on behalf of the objectors; and Albert A. Woll and Robert Haas who presented testimony on behalf of the applicant. Willene Dunnill and David Woll were also present.

The State Mining Board having considered the oral testimony submitted in said cause by witnesses duly sworn and having examined the exhibits introduced in said cause and being fully advised in the matter finds:

1. That this agency has subject matter jurisdiction over this matter pursuant to Section 9 of "An Act in Relation to Oil, Gas, Coal, and Other Surface and Underground Resources" as well as the rules and regulations of the Department of Mines and Minerals for the Division of Oil and Gas.

2. Each of the petitioner's applications for permission to drill water injection wells should be denied for the reason that there are primary production oil wells within the near vicinity of the proposed water injection wells, and these primary production wells would be adversely affected if the petitioner's water injection project is initiated and carried out.

IT IS THEREFORE ORDERED that the applications of Herman L. Loeb to convert the following described wells to water input wells:

Leopold Deters #15-WI well located 187 feet South and 637 feet East of the Northwest corner of the Southwest quarter of Section 2, Township 2 North, Range 3 West, Clinton County, Illinois, and

Winifred McCabe #11-WI well located 1019 feet North and 135 feet East of the Southwest corner of the Southeast quarter of the Northeast quarter of Section 3, Township 2 North, Range 3 West, Clinton County, Illinois,

and to drill the following described new well for water input purposes:

Winifred McCabe #13-WI to be located 250 feet South and 20 feet West of the Northeast corner of the Southeast quarter of the Northeast quarter of Section 3, Township 2 North, Range 3 West, Clinton County, Illinois,

is herewith denied.

Further consideration of a proposed water flood or enhanced recovery project for this field will be subject to the operators coordinating a comprehensive engineering feasibility study of the entire field and the results of the study with the consensus of agreement to be included in a petition to reopen this hearing for future consideration.

If you have any questions pertaining to this matter, please contact Mr. George R. Lane, Petroleum Engineer, whose telephone number is 217-782-7756.

ANNUAL REPORT LAND RECLAMATION DIVISION

A state surface mining regulatory program has been in existence in Illinois since 1962. The Open Cut Land Reclamation Act (OCM) required spoil ridge tops to be levelled, graded and vegetated. Requirements for reclamation were increased under the Surface Mined Land Reclamation Act (SMLRA) of 1968. The Surface Mined Land Conservation and Reclamation Act (SMLRCA) was passed in 1971 and has been amended periodically adding stricter provisions. In 1977, the federal Surface Mining Control and Reclamation Act, P. L. 95-87, was passed and states were required to develop regulatory programs at least as stringent as the federal rules and regulations. Illinois amended SMLCRA in 1978 to obtain the authority to operate an interim regulatory program until federal approval was received for a permanent regulatory program. The Illinois Surface Coal Mining Land Conservation and Reclamation Act (1980 Act) was enacted on June 1, 1980 in order to allow development and implementation of the permanent program. Illinois' program was conditionally approved by the Secretary of the U. S. Department of the Interior on June 1, 1982.

All surface and underground coal mining operations and secondary (carbon) recovery operations in the state are regulated under the permanent program which took effect February 1, 1983.

Federal approval of the state program has enabled Illinois to receive its 50 percent share of federal reclamation funds for restoration of abandoned mined lands. Other types of mining in the state continue to operate under SMLCRA as amended in 1977. No rule or law changes were made for these operations in 1983.

Prior to July 1976 the Division issued permits as annual permits and after 1976 for one, two or three years. Operating permits issued since 1962 are listed in Table I according to their year of termination. The law under which permits were issued is also identified.

For permits issued since 1962, a total of 799 permit locations at 255 mines were being inspected as of December 31, 1983 for all types of surface mineral extraction. For coal, 420 permit locations were under inspection for 119 mines. Surface areas of underground coal mines, refuse disposal areas, surface mine support facilities, as well as carbon recovery operations were inspected in 1983. For limestone extraction, 256 permit locations were under inspection at 87 mines; for shale and clay, 24 permit locations at 9 mines; for silica sand, 41 permit locations at 10 mines; and for sand and gravel, 58 permit locations at 30 mines.

The total number of acres under existing permits is 234,495.98. The majority of this acreage (222,318.73 acres) is for coal operations. Of the remaining acres, 8,563.85 acres have been permitted for limestone operations, 2,328.20 acres for sand and gravel; 914.82 acres for silica sand and 460.38 acres for shale and clay.

Acres affected by mining activities (133,030.43) is somewhat lower than permitted acres. The total acres affected are 123,393.91 for coal, 7,058.16 for limestone, 1,622.93 for sand and gravel, 621.32 for silica sand, and 334.12 for shale and clay. Under the permanent program, reporting of affected acreages for areas utilized to facilitate surface coal mining after February 1, 1983 was required for surface coal mine support facilities, carbon recovery sites and refuse area permits. Affected acreage reports were not required for surface operations associated with underground mines.

A total of 2,130.19 acres have been reaffected by mining operations. For coal, 2,091.14 acres have been reaffected while 30.80 acres have been reaffected by limestone operations and 8.25 acres have been reaffected by shale and clay operations.

Tables II and III reflect the amount of land reclaimed in the state under three earlier state laws, OCM and SMLRA (Table II) and SMLRCA (Table III). Totals on Table II are listed according to the calendar year the acreage was affected and the year this affected acreage was reclaimed and the bond released. Totals on Table III are listed according to the year that the permit for mineral extraction expires. These tables include only those acres for which grading and vegetation bond was released. Those acres with vegetation bond remaining (which may have had the grading bond previously released) are not included on either Table. Adjustment bond release for re-permitted refuse areas and reaffected acreage are tallied separately.

SUMMARY OF SURFACE MINE PERMITS AND ACREAGES AFFECTED UNDER THOSE PERMITS JANUARY 1, 1962 THROUGH DECEMBER 31, 1983

| Mineral | Permits Issued | Permit Locations under inspection | Permit Fees Collected | Permit Acres | Affected Acres | Reaffected Acres |

*₁ Spoil and Water with pH 5 or Greater, Vegetation Density and Overstory Greater than 25%, data Provided by Cooperative Wildlife Research Laboratory — SIU.

*₂ Quarry Pit Floor.

A total of 103,181 acres were mined for coal prior to December 31, 1961 when permit and reclamation requirements came into effect. The reclamation totals given in Table II are for coal mining permits issued from 1962 through 1968 under OCM and for permits issued from fiscal year 1969 through fiscal year 1972 under SMLRA. Reclamation totals are occasionally higher than acres affected because acres reclaimed prior to the first law (OCM) which met the minimum standards were included in the totals (Table II only). For coal and limestone, about half of the total reclaimed acres were graded for crop or pasture and about half for strike-off pasture. Nearly half of the shale and clay and half the silica sand and sand and gravel acres were graded for crop or pasture.

Total acres reclaimed in Table III are divided under categories for grading and texture and for land use. For coal, nearly three-fourths of the total reclaimed acres were released for pasture land use. Around half the land reclaimed from limestone extraction was released for pasture use. Shale and clay operations had a high percentage of land reclaimed for pastureland use. Both silica sand and sand and gravel operation have half of land reclaimed as pit floor, water impoundment, highwall or road.

Grading and texture categories for coal show 7,852.09 acres have been reclaimed, about one-third of the total, and released to Rule 1104 standards or a maximum grade of 4 percent of the original grade. The remaining areas have been reclaimed to a maximum grade of 15 or 30 percent. The majority of the acres for limestone, clay and shale, silica sand and sand and gravel were reclaimed to a maximum grade of 15 or 30 percent. These slopes are common for pasture land use.

*₁ Permit Year (year ending June 30 of year indicated)

*₂ Approved Original Grade, Specified Texture, Darkened Surface Soil Replacement

*₃ Pit Floor, Water, Highway, or Road

*₄ Reclamation Bond Released and Rebonded for Refuse Disposal

*₅ Reclamation Bond Released and Rebonded for Reaffected Acreage

To determine the number of acres reclaimed and released from bond obligation in 1983, contrast reclamation totals with those from Table III in the 1982 annual report.

During 1983, the Division issued letters under both SMLRA and SMLCRA notifying mining operators to remedy a noncompliance to avoid bond forfeiture (Noncompliance Chart). Under the SMLRA, one 90-day letter was sent to a coal operator.

Ten 45-day letters, including one to a coal operator and nine to limestone extraction operators were sent under SMLCRA in 1983. There were no 30-day letters sent. Letters are withdrawn once an operator has shown adherence to a fixed schedule to remedy the noncompliance.

Under SMLCRA and the 1980 Act, written citations are issued for any violation of the Act, the rules and regulations or conditions of a coal mining permit. There were a total of 127 notices of violation issued in 1983. Notices require remedial action and a time frame for violation abatement. Under the permanent program, the Department has the authority to assess and correct fines for each violation. A total of \$32,890 in fines was deposited in the General Revenue Fund by the Department from January 1 — December 31, 1983. Eleven cessation orders were issued in 1983. The majority of these cessation orders were issued for failure to abate a violation. Cessation orders may also be issued when a practice results in imminent danger to public health and safety or significant environmental harm.

NONCOMPLIANCE CHART

| Coal | 1 | | |
| Totals | 1 | | |

When a coal mining company fails to perform required reclamation, its surety bond can be secured so that reclamation can be performed by the Division. Table IV is a summary by coal company of surety bond forfeitures for all reclamation laws except the 1980 Act.

To date, bond forfeiture has been requested by the Division on a total of 804.3 permitted acres (acres reclaimed and acres remaining) and 291.73 unpermitted acres. Of the permitted acreage, 495.85 acres have been reclaimed, and 174.03 unpermitted acres have been reclaimed.

A total of \$483,833.58 in forfeitures has been requested by the Division (forfeitures requested and bond forfeited) and \$458,433.58 has been forfeited to date. The Division has performed reclamation with bond forfeitures totalling \$299,040.06.

The total amount of land disturbed due to surface mining (coal only) in Illinois is listed in Table V. Affected acres are by county for surface mining prior to and after reclamation laws were passed.

A total of 235,293.51 acres have been affected by surface mining in the state to date, with 103,181 acres affected prior to reclamation laws. A total of 11,634.26 acres were affected in 1983, an increase of 6,989.41 acres from 1982. This increase is, in part, due to the fact that more types of facilities (i.e. surface mine support facilities) were required to file affected acreage reports in 1983.

Acres in Illinois — 36,096,000

*1 Data Provided by Cooperative Wildlife Research Laboratory, SIU

*2 Data to 6-30-71 provided by Cooperative Wildlife Research Laboratory, SIU

*3 0.652 percent total acreage affected by surface mined lands in Illinois

For acres affected in 1983, Perry County continues to be the leading county with 5,517.40. Williamson County is next with 1,245.80 acres affected, then Fulton with 960.8 acres and Randolph with 921.90 acres. Saline and St. Clair counties had 904.96 and 906.90 affected acres, respectively.

Perry County also has the highest percentage of acres affected by surface mining, 15.18 percent. Fulton County is next with 9.36 percent, then Williamson with 6.71 percent, Saline with 5.45 percent and Knox with 4.70 percent. To date, 0.652 percent of the entire state has been affected by surface mining.

Figure I is a graphical representation of the total affected acreage for coal operation based on permit years. This Figure shows a slight upturn in the general downward trend of acres affected for coal mining for permits issued since 1963.

The Division has also issued refuse disposal permits for coal and aggregate mining under SMLRA and SMLCRA (Table VI). A total of 166 permits have been issued under both Acts with 87 presently in effect. A total of 4,542.87 acres have been permitted for refuse disposal. Bond has been released on 1,308.02 acres.

| TOTAL | 3844.50 | 350.50 | 316.90 | 290.38 | 5442.95 | 4269.35 | 292.70 | 516.62 | 47.63 | 316.65 | 5442.95 |
| PERCENT | 70.63 | 11.77 | 5.82 | 5.33 | 100.00 | 78.44 | 5.38 | 9.49 | 0.88 | 5.82 | 100.00 |

In Table VII, acreage to be reclaimed under surface mining permit reclamation plans approved from July 1 — December 31, 1983 are described by mineral product. Total permitted acreage is 5,442.95 acres. Table VII lists the reclaimed areas by two major categories: slope and texture (capability) and land use. Capability to which the land must be reclaimed is determined by the Department and is dependent upon the capability prior to mining activity. The post-mining land use, however, may also involve personal choice of the landowner or preferred land management practices (i.e., the Department may allow rowcrop capable land to be used as pasture land). For the land permitted in this time frame for all types of surface mining, 70.63 percent will be reclaimed to Rule 1104 or high capability rowcrop standards while 11.77 percent will be returned to its maximum original contour, 6.44 percent will have a maximum grade of 15 percent and 5.82 percent a maximum grade of 30 percent.

According to land use plans, 78.44 percent of the land will be reclaimed to agricultural use, 9.49 percent to forest use, 5.38 percent for water use, 5.38 percent for wildlife use and 0.88 percent for industrial use. Land use patterns for reclamation plans in permits issued since 1975 show the following:

**PERCENT OF LAND USED AS —
(all minerals)**

| Year Permit Issued | Percent of Land Used As— | | | | |
|--------------------------|--------------------------|--------|----------|------------|-------|
| | Agriculture | Forest | Wildlife | Industrial | Water |
| 1975 | 94.46 | 1.48 | 0.09 | 2.58 | |
| 1976 | 90.46 | 5.94 | 0.13 | 2.77 | |
| 1977 | 83.42 | 7.63 | 6.94 | 0.44 | |
| 1978 | 62.38 | 33.74 | 2.30 | 1.58 | |
| 1979 | 82.06 | 9.42 | 5.42 | 3.10 | |
| 1980 | 74.98 | 14.95 | 6.66 | 3.41 | |
| 1981 | 64.09 | 18.22 | 6.48 | 0.88 | 10.33 |
| 1982 | 73.21 | 5.04 | 11.43 | 2.87 | 7.44 |
| 1983 | 78.44 | 9.49 | 5.38 | 0.88 | 5.82 |
| Mean (Percent) | 78.17 | 11.77 | 4.98 | 2.05 | 7.86 |

FIGURE 2

For coal only, data from Table VII and Table IX showing the change in land use after mining has been presented in Figure 2. The lower chart of Figure 2 shows the planned land use after coal mining on lands permitted from July 1 — December 31, 1983. The majority, 78.44 percent, will be in agricultural use. For the remaining acres, 9.49 percent of the land will be in forest use, 5.82 percent in water, 5.38 percent in wildlife and 0.88 percent in industrial use. This may be contrasted with the land uses before mining (from Table IX and the upper chart of Figure 2) showing 69.03 percent agricultural land (pasture and crop). Pre-mining land uses also included 18.87 percent industrial use, 11.47 percent forest use and 0.63 percent water. There will be a significant increase in the amount of acreage reclaimed to agricultural uses.

Under SMLCRA, the Division is required to hold public hearing to discuss proposed land reclamation plans, when requested by a county board or commission in the county where mining is proposed. No hearings were held in 1983 under SMLCRA.

VIII SUMMARY OF PUBLIC HEARINGS AND INFORMAL CONFERENCES HELD BY DEPARTMENT (January 1 — December 31, 1983)

| | Fulton | — | — | 6 |
| | Perry | — | — | 2 |
| | Saline | — | — | 1 |
| | St. Clair | — | — | 1 |
| | TOTAL | 0 | 1 | 10 |

¹ Interim Program

² Permanent Program

FIGURE 2*
July 1 — December 31, 1983

PRE-MINING LAND USES

APPROVED POST—MINING LAND USES

* Data from: Tables VII and IX (Coal only)

Under the permanent program (1980 Act), a variety of individuals may request the Department conduct an informal conference and/or a public hearing to discuss the permit applications. Informal conferences may be requested, in writing, by any person whose interests are or may be adversely affected by issuance of the permit, as well as any officer of any federal, state or local government agency. A public hearing may also be requested, in writing, by the above mentioned entities or any interested person. The Department conducted one informal conference and ten public hearings in 1983.

Table IX shows, by mineral product, the type of land use during the five-year period preceding surface mining permit issuance. Only land with permits issued from July 1 — December 31, 1983 are shown.

For the five-year period, 69.03 percent of 3,757.39 acres was used for agricultural uses (crops or pasture). A total of 18.87 percent was used for industrial purposes, 11.47 percent for forest and 0.63 percent for water.

Following is a similar chart for five-year land use periods preceding issuance of surface mining permits reported annually since 1972. The chart shows a change between 1982 and 1983 with a decrease in the percentage of pastureland, forestland and water permitted. There was an increase in the percentage of cropland and industrial land permitted.

**PERCENT OF LAND USED AS —
Five Year Period Prior to Permit Issuance**

| Year Permit Issued | Percent of Land Used As— | | | | |
|--------------------------|--------------------------|---------|--------|------------|-------|
| | Crop | Pasture | Forest | Industrial | Water |
| 1972 | 60.50 | 17.02 | 21.20 | 1.27 | |
| 1973 | 51.02 | 28.88 | 20.02 | 0.08 | |
| 1974 | 49.21 | 21.53 | 28.98 | 0.28 | |
| 1975 | 53.28 | 15.03 | 30.76 | 0.93 | |
| 1976 | 52.47 | 16.78 | 30.52 | 0.21 | |
| 1977 | 43.82 | 23.84 | 31.63 | 0.71 | |
| 1978 | 23.26 | 30.53 | 40.96 | 1.57 | |
| 1979 | 49.59 | 22.10 | 17.16 | 5.93 | |
| 1980 | 57.98 | 9.74 | 26.55 | 4.42 | |
| 1981 | 33.14 | 23.76 | 42.51 | 0.50 | 0.09 |
| 1982 | 42.01 | 29.26 | 19.82 | 5.30 | 3.61 |
| 1983 | 55.81 | 13.22 | 11.47 | 18.87 | 0.63 |
| Mean (Percent) | 47.67 | 20.97 | 26.80 | 3.34 | 1.44 |

The following chart combines land use categories from the two preceding tables (VII and IX) to give an overall picture of the land uses for the five-year period preceding permit issuance annually and the planned land use after mining.

FIVE YEAR PRE-MINING PERIOD

| Year Permit Issued | Percent of Land Used As— | | | |
|--------------------------|--------------------------|--------|------------|-------|
| | Agriculture | Forest | Industrial | Water |
| 1978 | 53.79 | 40.96 | 1.57 | |
| 1979 | 71.69 | 17.16 | 5.93 | |

| 1983 | 78.44 | 14.87 | 0.88 | 5.82 |
| Mean (Percent) | 72.53 | 21.92 | 2.12 | 7.86 |

Crop and pasture areas are combined under agriculture, while forest and wildlife categories are combined under forest. Data was taken from Tables VII and IX shown and from Tables A and C in previous annual reports.

Land uses after mining for 1983 are similar to the land uses in existence for the previous five years. Under SMLCRA and SCMLCRA (1980 Act), there has been a regulatory preference for land to be reclaimed to the pre-mining uses. Changes in land use must be approved under an alternative land use procedure. For 1983, the amount of land to be used for agriculture, forest and water increased compared to used of the land during the five-year pre-mining period. Industrial use of the land decreased significantly.

Non-coal surface mining permit applicants are required to submit information pertaining to land ownership and assessed valuation for acres to be surface mined. For permits issued from July 1 — December 31, 1983, such data are summarized in Table X by mineral type. Information regarding the assessed valuation is not required in the permit application utilized for coal mining operations under the permanent program. Any assessed valuation data available for coal operations, were included in Table X.

TABLE IX

MINING PERMIT LANDS

SUMMARY OF LAND USES DURING PRECEDING FIVE-YEAR PERIOD, JULY 1 — DECEMBER 31, 1983

| PRODUCT | CROP | PASTURE | FOREST | WATER | INDUSTRIAL | TOTAL |

* information not available on 5,241.7 acres

Table XI shows, by product type, the number of surety bonds held by the Division for surface mining permits and refuse disposal area permits, for both surface and underground mines, that were issued in 1983. Also shown are bonds held on previously issued permits.

A total of 50 surface mining permit bonds were received in 1983 for 20,425.61 acres at a value of \$212,107,503. Twenty-seven of the bonds were for coal operations and 19 for limestone. The average surface mining bond rate per acre is \$10,384.39, more than twice the rate for 1982 at \$4,644.42. For refuse disposal area permits, bond was received in 1983 for 85.1 acres for silica sand and sand and gravel operations, at a value of \$57,000 (\$669.80/acre). With bonds held on previously issued permits, the total bond held by the Division for 1983 was \$402,845,205 for surface mining permits and \$2,915,236 for refuse disposal area permits.

Methods to remove overburden for surface mining reported for July 1 — December 31, 1983 are summarized in Table XII for all types of mineral extraction. Over half of the acreage mined, 3,317.90 acres, was by dragline, primarily by coal mining. Dragline and shovel machinery were used on 1,678 acres and dozer and scraper machinery on 376.90 acres. The remainder of the acreage constituted miscellaneous areas which may not have incurred actual mining (i.e. haulage roads) or may have employed an alternate method for mining.

TABLE XI

SUMMARY OF SURETY BONDS FOR SURFACE MINING PERMITS AND REFUSE LAND PERMITS

| Product | Surface Mining Permits | | | | Refuse Land Permits | | | |
|---------------|------------------------|------------------------|--------------------------|-----------------------------------|---------------------|------------------------|--------------------------|-----------------------------------|

* Hydraulic

Table XIII shows, by mineral type, the depth of overburden for mining permits issued from July 1 — December 31, 1983. Over half the acreage, 3,596 acres, had overburden depth between 100 and 125 feet. Another 1,344.90 acres had overburden depth in the 76 to 100 feet range. Both of these acreages were coal removal. Overburden depth for aggregate operation is relatively shallow, usually the 0 to 50 feet. Overburden depths for carbon recovery operations ranged from 1 to 10 feet. The remaining acreage was utilized for activities such as haulage roads or other support facilities.

The following Table shows percentages of overburden depths since 1972 for coal mined acreages. In the past, most overburden depths for coal removal were in the 51 to 75 feet and 76 to 100 range. However; in 1983, a shift to deeper coal removal is seen with nearly two-thirds in the 100 to 125 foot range, 3,569 acres, and 1,344.90 acres in the 76 to 100 foot range.

PERCENT OF PERMIT ACREAGE

| Year | 26' - 75' Depth | 75' - 100' Depth | 100' - 125' Depth |
|------|-----------------|------------------|-------------------|
| 1972 | 85.3 | 12.1 | |
| 1973 | 73.1 | 26.8 | |
| 1974 | 81.0 | 18.5 | |
| 1975 | 69.9 | 29.4 | |
| 1976 | 64.2 | 35.6 | |
| 1977 | 7.3 | 89.1 | |
| 1978 | 99.3 | 0 | |
| 1979 | 43.4 | 46.9 | |
| 1980 | 12.4 | 73.4 | |
| 1981 | 60.0 | 34.0 | |
| 1982 | 57.2 | 18.6 | |
| 1983 | 0.01 | 25.5 | 67.7 |

TABLE XIII
SUMMARY OF MINING OVERBURDEN DEPTH CATEGORY, BY MINERAL PRODUCT
JULY 1 — DECEMBER 31, 1983

| PRODUCT | 0-10 Ft. | 11-25 Ft. | 26-50 Ft. | 51-75 Ft. | 76-100 Ft. | 100-125 Ft. | Misc. | TOTAL |

*Carbon Recovery Operations

Under SCMLCRA, the capability of land prior to coal mining is determined using several criteria (i.e. slope). Land use after reclamation can be contrasted with this information. Table XIV summarizes data for coal mined acres by county, July 1 — December 31, 1983.

Total permit acreage for coal mining was 5,268.20 acres with 2,946.6 acres or 55.93 percent actually used for row crop production before mining (Col. 2). A total of 3,903.4 acres or 74.09 percent of permitted acreage was Class 1, 2, or 3 land (Col. 5) according to U.S.D.A. Soil Conservation Service categories, and 1,365.8 acres or 25.93 percent was not Class 1, 2 or 3 (Col. 3).

A total of 3,420.1 acres of Class 1, 2 and 3 land, 64.92 percent of this total permitted acreage, also had A and B slopes (Col. 4). This acreage is generally considered to be prime farmland (A = 0-2%; B = 2-5%). More acreage permitted for coal mining had the capability for rowcrop production (Col. 4) than was actually being used for rowcrops (Col. 2) before mining.

Williamson and Saline Counties had more Class 1, 2 and 3 land with A and B slopes (Col. 4) than acreage being used for rowcrop production (Col. 2).

Land capabilities existing before mining must be restored after mining. However, land uses or vegetation planned need not correspond to capability. Land is often initially restored to pasture to regain tilth, organic matter, nutrients, etc., which may be reduced by the mining process before rowcrop production is started.

TABLE XIV
LAND USE AND USE CAPABILITY,
CONTRASTING BEFORE AND AFTER MINING FOR COAL, BY COUNTY
JULY 1 — DECEMBER 31, 1983

| | | | Slope * Capability Class (Pre-mining) | | | | | Planned Reclamation (After Mining) | | | | | | | |
|---------------------------------|-------------------|---------|--|-----------------------------|------------------|-----|--------|------------------------------------|------------------|---------|-------|--------|----------|--------|--|
| | | | Not Class 1, 2, 3 | A&B Slopes Class 1, 2, 3 | Class 1, 2, 3 | | | Cropland Non-1104 | Cropland 1104 | Pasture | Water | Forest | Wildlife | | |
| County | Permit Acreage | Rowcrop | | | | | | | | | | | | TOTAL | |
| Franklin | 316.6 | 103.1 | 213.5 | 103.1 | 103.1 | -0- | 103.1 | 213.5 | -0- | -0- | -0- | -0- | -0- | 316.6 | |
| Gallatin | 5.5 | -0- | 1.7 | 3.8 | 3.8 | -0- | -0- | 2.6 | -0- | 1.7 | -0- | 1.2 | -0- | 5.5 | |

| St. Clair | 40.0 | -0- | 26.4 | 13.6 | 13.6 | -0- | -0- | 20.3 | 6.1 | 13.6 | -0- | -0- | -0- | 40.0 | |
| Saline | 2751.2 | 1237.2 | 865.1 | 1533.2 | 1887.1 | -0- | 669.7 | 1501.65 | 83.0 | 318.02 | 156.4 | 22.43 | 156.4 | 2751.2 | |
| Williamson | 616.8 | 297.8 | 69.2 | 449.2 | 547.6 | -0- | 280.0 | 239.7 | -0- | 94.1 | -0- | 3.0 | -0- | 616.8 | |
| TOTALS | 5268.2 | 2946.6 | 1365.8 | 3420.1 | 3903.4 | -0- | 2180.7 | 1977.75 | 259.1 | 516.62 | 286.4 | 47.63 | 286.4 | 5268.2 | |
| Percent of Permit Acreage | 100.0 | 55.93 | 25.93 | 64.91 | 74.09 | -0- | 41.39 | 37.54 | 4.92 | 9.81 | 5.44 | 0.90 | 5.44 | 100.0 | |

Land uses planned after reclamation (Cols. 6-12) show the highest percentage of land to be used as cropland, 41.39 percent or 2,180.7 acres. Pasture land use accounts for 37.54 percent or 1,977.75 acres, forest use for 9.81 percent, wildlife use for 5.44 percent, water use for 4.92 percent and industrial use for 0.90 percent.
